Pure Origins

We've set a new direction in womens' fashion at Saafins. Opening our first design studio in Dhaka housing an international team comprising talents from Japan, Malaysia and Philippines whilst in the UK we launched our first studio just before the pandemic.

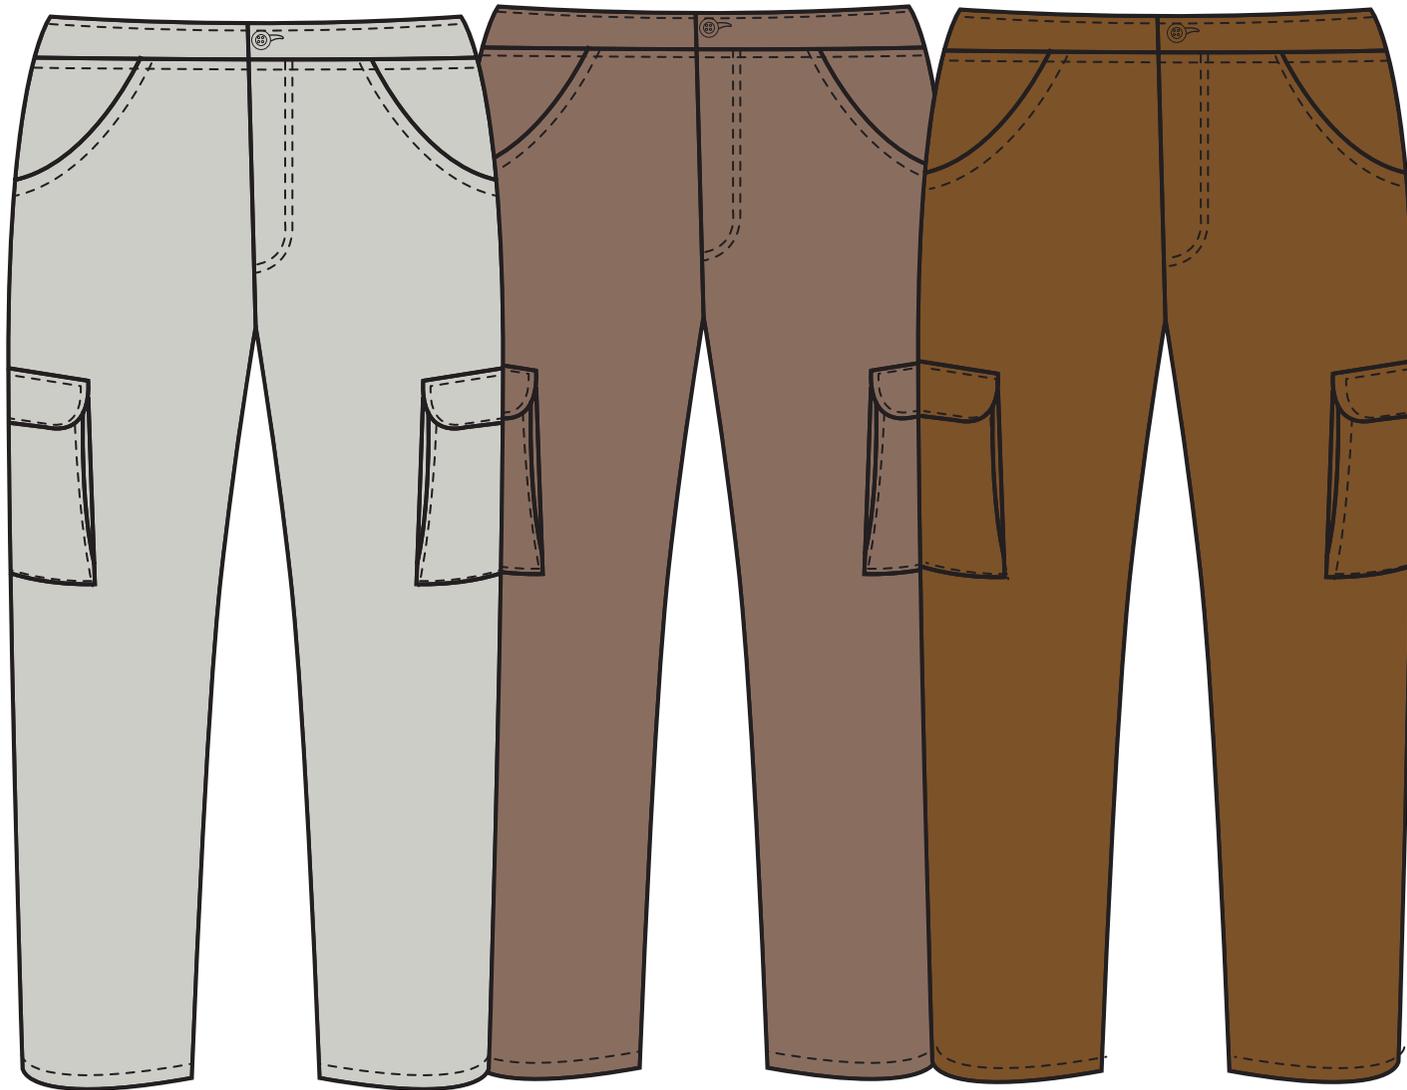

With style monitors and market analysts at hand we aim to assist in your planning, advice and designing processes. With recent changes in the industry, we have built strong operation-ready teams in the UK to support you from start to finish; inception of ideas, pattern-cutting to creating perfect samples all within the UK.

Our new woven fabric supplier 'Zaber & Zubair' have pledged to work with us for the next five years. With over two-decades of serving fashion and home textiles, Zaber & Zubair is perfectly placed to produce sustainable fabrics for fast-fashion.

With leather factory specialising in accessories; bags, wallets, purses, belts and more, PureOrigins has now become your one-stop for womens' fashion.
