Our company has started to produce beanies, caps, hats, scarves, headbands and gloves, as well as various knitted accessories in 1995 in Istanbul, Turkey.

Nevertheless, a more professional structure was established in 2000 with the trademark « FONEM ».

Since our early days, we've been developping a wide range of products in constant evolution. We would like

to emphasize that all of our product are carefully being designed by our designers in our own design office depending on the trendy colors of world fashion.

We realize our production by modern machinery and equipment with our own team in our factory in Istanbul. Our daily production capacity is between 6 – 8 thousand pieces which can be easily increased in case of demand.

We sell our products in Turkey, and export them to several foreign countries.

# We try to offer unique and creative solutions that match up to expectations of our customers.

# We believe that professionalism and quality can be provided only by a motivated team.

# We continue to monitor the sector innovations and use the latest technology.

# We believe that quality is an essential key for any company and that is why we maintain our quality.

# We spend our energy to create the products with fashion and vision.
