AUTUMN WINTER 2019 V.1

## INTRODUCTION

Heading into the winter season we are awash with warm colours, funky prints and interesting fabrics!

This season we are introducing three new collections to our growing range. Refreshing new autumnal tones from the Quinta collection will provide you with a trustworthy bag to carry you through the entire season. Cosy vibes continue through to the Teddie collection with a revived colour pallet you will love. If you're looking for something a little bolder this season the Zoa see through and Fiesta collections are perfect for you! Updating your favourite bags from last season and introducing transparent leopard prints, pops of neon pink, and exciting new sequin patterns!

Bum bags remain the must have accessory of the season and we are not short of options. Sequins, glitter and bright pops of colour ensure you have all the statement options you need to stay seriously on trend!

All in all, we have everything you need to freshen up your arm candy for the coming season, Happy Shopping! - Claudia Canova

## MTO

We are able to offer a full Made To Order service for branded and own label ranges. We welcome the opportunity to discuss your brand and develop and deliver a range that benefits from generations of leather craft and design expertise. We have a strong design team based in the UK & China working on own labels with several of the UK's high street retailers. We have our own QC & sampling and production team based in Guangzhou, China only 40 minutes flight time away from Hong Kong and we would welcome buyers wishing to produce own label collection to our Leeds or Guangzhou offices and showrooms to discuss design and production.
