

SILVY ROWSON

## THE BRAND

**SILVY ROWSON** is a new brand dedicated to women's elegance and confidence. The brand's purpose is to bring an exclusive and daring look, making women feel empowered, attractive and unique. The designs appeal to Ladies who like to be noticed and feel that they are the Only One.

The Garments are a mixture of ready to wear high street fashion and special made to order, ensuring uniqueness to every piece. If you are fortunate enough to own a Silvy Rowson design, it deserves an exclusive place in your wardrobe. When out of the wardrobe, wear with pride and stand out from the crowd.

The Brand was established in Varna, Bulgaria with an incredibly talented tailoring team - Quality being at the core of everything we do. The designs reflect Silvy's character, a mixture of being a little crazy and daring, resulting in the fusion of a timeless fashion line for women looking to express their true confident persona.

The brand was founded by Silvy Rowson and is an example of her dream coming true, allowing her fully to unleash her creativity. This dream was inspired by the beauty and magic of the Black Sea where Silvy spent most of her life and inherited the quality/experience of her Grandmother Elena, who was a lifelong tailor. The dream was buried deep in Silvy's heart, until the right moment came to share it with the world – that time is now.
