

✓ Long Experience in Textile sector.

Since 1978, We have been proud of providing high quality fashion fabrics to ready to wear garment industry. We have the reputation for the highest quality exclusive textiles with unique, numerous and original designs.

✓ Specialized in Men's wear

Our fabrics, being produced with high technology, offer and lead you to avant-garde creations. Our production range is woven and knitted fabrics with the blending of polyester and viscose for Men's suits, pants and jackets.

✓ In-house Dedicated Design Department

We welcome the special needs of international buyers and men's apparel manufacturers, seeking for new trends and innovations in fabric design with our in-house dedicated design department. We offer them exclusive and special designs and consultancy in accordance with their needs and concern.

We are proud of adapting ourselves to prioritize customer needs and demands by creating innovative designs while managing their expectations in parallel with our R&D facilities.

✓ Flexibility in Quantity with On Time Delivery

We are a textile beacon for quality and consistency thanks to our dedicated team and drive for customer satisfaction.

To ensure our customers' satisfaction we give an utmost care and importance for their changing requirements about order quantities without compromising our sustainable quality and on time delivery principles. Depending on the value of mutually beneficial and long term business relations and collaborations, our customers' satisfaction is indispensable for us.
