

THE MAD HATTERS™

Headwear options have been very limited in the accessories section of major retailers and fashion houses for long.

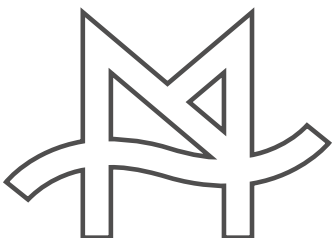

Launched in 2019, The Mad Hatters aims to address the need in quality headwear, both casual and classic for women. We intend to broaden the line of accessories by introducing new silhouettes, fabrics and ideas. With a greater focus on natural fibers such as cotton, linen, bamboo and silk, our research has led to the use of contemporary fabrics in the headwear we offer.

Having collaborated with the largest manufacturer of headwear in India, we are comfortably placed to fulfill demands from major fashion retailers as well as cater to the needs of independent boutiques. Every single product delivered by the Mad Hatters is produced ethically and packed with eco-friendly material.

Our team of designers is also welcoming of ideas from buyers that we partner with, to reflect their story in our products. Continuous research and interaction with our customers helps us develop new collections on regular basis and we look forward to an opportunity to share them with you.

The Mad Hatters logo is a Registered Trademark
