

"It is a happy talent to know how to play." Ralph Waldo Emerson

PLAY!

Feel the breeze as you gently open your eyes. Hear the flowers swaying in the fields. See the cotton candy clouds in the sky. Embrace the balmy sun as it touches your skin. A smile on your face as your body begins to move. Your inner child awakens as you jump, run, dance and fall into endless laughter and play.

Drawing inspiration from the wondrous and playful adventures of our childhood, we designed Spring-Summer 2022 around the concept of *Play!*

With this collection, we move forward on our journey to bring you unique and sustainable chic garments made from the best organic fabrics that Europe has to offer.

Enter a magical universe of light-weight, enveloping garments, sweet pastels and whimsical prints. Discover breezy shirts and bohemian dresses with ruffled sleeves. Explore jumpsuits with accentuated waist lines and stylish designs with dreamy oversized bows.

Our garments are ethically made in Europe from certified organic linens¹ and cottons². Our finest linen is sourced from a renowned family business in Ireland, dating from 220 years ago. The adorable strawberries-adorned prints are of English origins, sourced from the illustrious house of Liberty textiles.

These sustainably chic designs and the unforgettable touch of organic fabrics are perfect enhancements for spring and summer days. Wear *Play* by KAN and be carried away by the essence of sustainable chic.

¹ GOTS (Global Organic Textile Standard) is the worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

² OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety.

OUR COMMITMENT

The time for change is NOW. We know that we are responsible for what we leave behind for our planet and the generations to come. At KAN we are constantly educating ourselves and improving our processes to minimise our social and environmental impact. We are proud of the progress we have made so far and keep pushing to become the most sustainable version of ourselves.

We take care of each other

Since the beginning of KAN, we work closely with the amazing people who make our garments. Fairly paid work is of paramount importance to us. We produce our garments within the European Union with carefully selected manufacturers that promote safe working conditions and a healthy work-life balance.

We embrace the environment

To keep our carbon footprint as low as possible, we source fabrics from eco leading European manufacturers. They are committed to reduce their energy and water consumption at every stage. For AW21/22, we use GOTS (Global Organic Textile Standard) fabrics. Two exclusive styles are crafted from a very limited annual selection of rare organic wool, which is carefully harvested of the sheep's wellbeing and natural rhythm.

We reuse the already existing

Each garment is produced with love and thoughtfulness. We take into consideration that we leave no dead stock behind. We are dedicated to reuse, recycle, reinvent and reimagine. All paper and plastic waste from manufacturing is recycled.

It is only the beginning of our sustainability journey

We are aware of our social and environmental responsibility and keep educating and challenging ourselves to set the bar higher with each collection we create. At all times we want to be honest with our customers, partners and ourselves. Above all, through our garments and our endeavours, we want to empower you in your own journey to become the most conscious version of yourself.

Manuela van Vloten – Sabarez Founder KAN
