

Discover our timeless, yet modern jewellery.
Made from stones and minerals sourced
locally, in Poland.

KAMENA

TIMELESS
JEWELLERY

ETRU COLLECTION

While designing our Etru collection, we tried to refer to the stunning ancient artefacts created by Etruscan civilisation, especially with decorativeness and larger-than-usual forms.

ETRU COLLECTION

As always, we decorated our pieces with natural stones sourced locally. We combined the round shapes of precious metals with beautiful transparent mountain crystals, which we obtained in Lower Silesia.

TREASURES OF BALTIC SEA COLLECTION

For ages amber was framed very decoratively but in our opinion, it looks the most beautiful in minimalist forms. Take a look at our Baltic Sea treasures and enjoy their sunny beauty!

LETTERS COLLECTION

Necklaces with letters engraved in Baltic amber. Let them be your amulets which express the power of your names and personalities!

CIRCLES COLLECTION

In "Circles" collection we refer to perfection of the circle shape. It symbolizes completeness and harmony as well as femininity and sensuality.

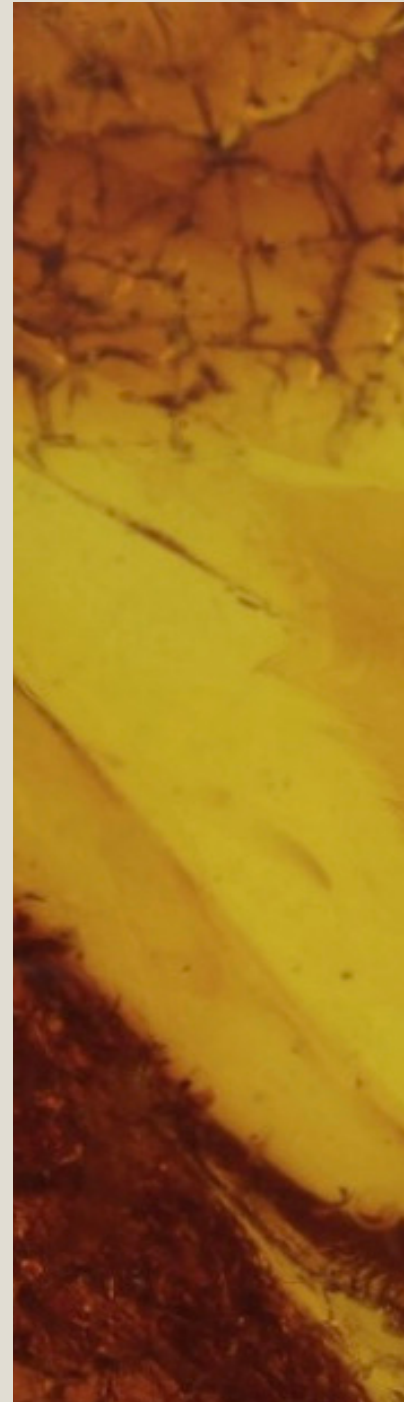

CIRCLES COLLECTION

KAMENA VALUES

We source locally all of the stones we use in our collections. We do not use minerals from developing countries, often mined with disregard for human rights and the environment.

Our jewellery packaging is free of plastic and made from fully biodegradable materials.
