ecuvo,

...is a brand of knitted accessories, made from organic and recycled materials. The Japanese word `ecuvo` (えくぼ) refers to the dimples that form on your cheeks when you smile, and is a symbol of what we wish to bring to our customers.

Our Philosophy

Our motivation is simple; to help people enjoy the seasons in comfort, while doing our part to preserve them for future generations. We therefore use organic, recycled and naturally dyed materials as part of our effort to reduce our impact on the environment.

As part of our effort to reduce our impact on the environment, our SS line is made from 100% organic cotton, and dyed using only natural waste materials.

Each delicate color is created using organic produce destined to be thrown away, helping to reduce waste and eliminate the need for harmful chemical dyes.
