

inBLOOM

inBLOOM

Since 2008, we create pieces that ignite your best self. A way of living where you reconnect with yourself and live a unique experience. Combining elegance, comfort, and our passion for high quality fibers, our designs are made for every woman that enjoys the most intimate moments at home. Creating long-lasting pieces is at the core of our philosophy and what inspired us since day one.

By approaching quality with a perspective of preserving and extending the lifecycle of each piece, we ignite a mindful consumption towards a more sustainable industry. Our efforts are focused on having a positive impact around the community we work with, to lead and inspire a socially, economically, and environmentally sustainable future. Since 2016, we are proudly certified with World Responsible Accredited Production.

Blooming in the Desert

*Designed & made in Peru
With Peruvian Pima Cotton*
