M A N A G E M E N T

Managing Director **Mr. Karthi Chinnaswamy** with his high proficiency and vast experience in this industry arena. His enthusiasm for quality fabrics inspired him to bring innovations to Piyranno Knits since its inception. The company has grown at an overwhelming pace, keeping up with the needs of the customers as well as stakeholders.

Under his direction, Piyranno Knits Company continues to grow steadily each year with an indelible passion & spirit for the past two decades. The culmination of a dream, this is just the beginning of a revolution in the Global Textile Market.

“We believe that a strong passion can make dreams come true and that limitless effort can overcome any obstacles. These beliefs remain the driving force behind our successful growth.”

Quality Policy

Our Quality policy is to listen, meet or exceed every customer's unique quality requirements right from pre-production to the delivery without any compromise.

Mission

Our Mission is to offer specialized services with Quality Control at all the stages of production to meet the International AQL Standards.

Aim

The ultimate aim of our business is to build a long-term relationship with our clients by offering them environmental friendly & superior quality products with proactive & unparalleled customer service in fastest turnaround time

Our Products

Piyrano introduces a new line of clothing which is trendy yet unbelievably affordable and exclusively brought to you in sustainable ecological fabrics.

Our Range of Products

- The product category extends to both men; women & also children.

The products are manufactured in all types of fabrics such as Jersey, Interlock, Rib, Drop needle, Waffle, Terry, Fleece, Pique and more. They are manufactured in natural as well as man-made fibres such as Cotton, Viscose, Polyester, Modal, Elastane, Tensile, Linen, Bamboo and Organic Cotton.

Infrastructure

Our state-of-the-art manufacturing facility is spread over a sprawling area. As a customer focused enterprise, we continually upgrade our machineries and technology to ensure that we are in the forefront of our industry sphere. We focus on research and development, aligned with an addition of new products with latest fashions. We have a well-harmonized production unit backed by the support of qualified merchandisers and managers with timely follow up of the orders. Our production unit is well-equipped to manufacture 12 Million garments

Machinery - Printing (MHM-Arioli)

The iQ-Oval with its revolutionary intelligent drive system (iDS) is one of the fastest oval presses worldwide, representing a whole new level of performance, accuracy and reliability. With this drive system it is also one of the safest printing presses available on the market today. No safety barriers are required which gives the operator unrestricted access to the loading area.

A 100% registration accuracy is provided by having each printing station its own pin, so there is no part which will stretch and lose this accuracy. The iQ-Oval is equipped with the latest "m-touch pro" operating system with tablet interface. It has the widest pallet printable area of 90 X 110Cm up to 9 Colours. This gives a fast and accurate print productivity.

TECHNOLOGY We Use

by TAS - Australia

Here is the TAS International design and manufacture quality automatic; multicolor screen printing machinery, along with a range of ancillary equipment including textile drying systems, compressors and infrared /quartz Flash Cure Units.

O u r C l i e n t s

We do our business with satisfactory customer service that is based on long-term, strategic partnership with our customers. We follow a meticulous approach towards the client requirements and strive to afford service that is unparalleled in the industry.

Our main strength is our action plan in executing the orders. Once price and order is finalized by the buyers, we start making the counter samples to them in actual color, weight, artworks if any. By doing so, the buyer can analyze the look of the garment in the store immediately after seeing the counter sample. It's a time saving procedure for both the buyer and supplier. If all aspects are ok on this counter samples, we will directly go for pre-production, which eases the order execution.

Some of our prestigious clients

- Melon Fashion Group - Russia - 1200 Stores
- Lisa Cassels I Nordstan Ab - Sweden - 36 Stores
- Stockmann - Finland - 26 Stores
