# OSKA MURANO IS A NEW BRAND IN THE LADIES LUXURY SPACE.

Hello,

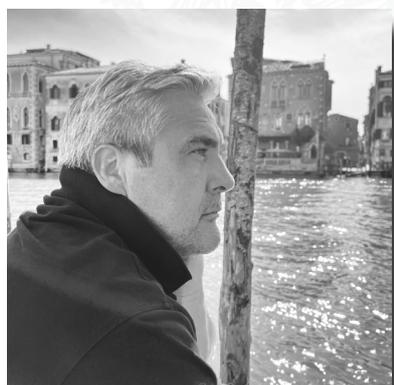

Thank you for having in hand the first Oska Murano brochure ever put together. We trust you will enjoy reading through this launch edition and will be inspired to acquire one of our creations or indeed one of our sets, becoming a user and or a collector.

We create exquisite make-up brushes which combine the beauty and functionality of a professional head, the jewellery richness of using noble materials and the exclusivity of having been made by master artisans. Beauty – Jewellery – Art.

As a start, the brushes come with a ferrule which is either gold plated, silver plated or enamelled which is married to a handle with the same finishes of which some can be dressed with Swarovski crystals. The same applies for the fitted ring. A change from the norm.

However you can upgrade these to “Masterpiece” status by taking them into the world of high-end jewellery and art. The ferrules and handles are made of 925 silver or 18ct or 24ct gold with the handles following suit and being set with diamonds, precious and semi-precious stones - the same also applies for the ring - and the heads go to natural hair. Real beautiful investment pieces that shout luxury and exclusivity from every angle.

Designed in Broadway (UK), engineered and made in Venice (Italy), 100% made in Italy where our master artisans take real pride in these new creations. Thus we look forward to welcoming you in the Oska Murano Brand and Club.

ALEXANDRE BRONCKAERTS

FOUNDER

YOU CAN SELECT FROM THE 2022  
YEAR COLLECTION ANY BRUSH AND  
CREATE YOUR OWN VIA OUR PRIVATE  
COMMISSION SERVICE OR THE PERSONAL  
SHOPPING SERVICE FROM OUR SELECTED  
PARTNERS KNOWN AS AMBASSADORS.

You can also take these brushes to Masterpiece status turning them into unique pieces of jewellery and art.

Be it a special gift you have in mind for your loved one, a mother to daughter hand over, a birthday, marriage or simply the desire to own quite possibly the most exclusive and exquisitely crafted make-up brush in the world.

Oska Murano is there to put a smile on the custodians face every time.

# OUR STORY

2018 - the year where it all started.

Following a visit to a show the Founder came to the conclusion that there was no real variety in the world of make-up brushes in terms of luxury. Of all things the visit to the show had nothing to do with make-up brushes in the first place. An idea was born, the opportunity was there to be developed.

Four years later and after many incredible obstacles the Oska Murano company meets the world.

2018 was the year of the idea. 2019 the year where the first sketches are created and the validity of such items. 2020 the search for artisans starts from the UK, across Europe finally settling in Italy. 2021 is the year of the engineering and prototyping. 2022 we are there finally.

The story begins now in July 2022 in London .

# THE OSKA MURANO BRAND

## BEAUTY - JEWELLERY - ART

- Oska Murano is a new brand in the Haute Beauté, Haute Jewellery and Luxury gift market place. Designed in the UK, made in Italy, available worldwide.
- By only using the best components and most noble materials we are able to create incredible pieces that truly adhere to the motto: Beauty - Jewellery-Art.
- When you acquire an Oska Murano item you do in the knowledge that it is an investment in every sense of the term; personal, hereditary, historical and financial of course as gold and precious stones will always remain.
- An Oska Murano brush is as much a professional beauty brush as it is a statement piece - a collectors piece or simply a proof of love. It can be many amazing things.
- The Oska Murano brand has trademarks, patents and registered designs either acquired or ongoing and will be such for ever. You can rest assured that your investment is protected because we protect what we do.
- Your investment is further protected as no more than 99 of any style and set will ever be made in a year. 49 pieces for the Murano glass handles. Our build sheets don't go over 99 in any case and each brush comes with its own B.I.N (Build Identification Number) so you can see which one you have. From 1 of 99 to 99 of 99, that is it.
- We are a truly special brand for truly individual people.

# MASTERPIECES

**Q: HOW DO YOU UPGRADE AN OSKA MURANO BRUSH OR SET TO MASTERPIECE STATUS OR HAVE A MASTERPIECE CREATED FROM SCRATCH?**

**A:** First you do not need to acquire an Oska Murano brush or set. You just need to choose a style from the 2022 Collection and the work can start from there.

**Q: WHAT CAN YOU DO TO UPGRADE THE STYLE I HAVE CHOSEN?**

**A:** Well pretty much everything. We only work with Master Artisans who have decades if not centuries of knowledge and experience at their disposal. Anything is possible.

**Q: WHAT MATERIALS CAN WE USE?**

**A:** Gold, silver or any precious metal. The ferrule goes from a gold plated ferrule to an 18ct or 24ct ferrule. The same principles apply for the rings and handle. We then set diamonds or precious stones or semi-precious stones in the handle. Finally a special case is created for you to your colour specification.

**Q: WHAT IF I WANT TO MAKE MY OWN?**

**A:** It is Easy! Draw what you wish the brush or collection to look like. We will create a 3D illustration for you to visualize it. If we have captured your idea then you sign it off. We then go on to specification: which precious metal you wish to use, which diamonds or precious stones you wish to set. We draw up the specification, you confirm it and sign it. And we start to create it.

**Q: HOW LONG WILL IT TAKE TO MAKE?**

**A:** Between 3 and 6 months depending on work load and availability. Remember some handles can carry up to 300 diamonds and some sets up to 3,500 stones. So it is truly spectacular work.

**Q: ANYTHING ELSE?**

**A:** Yes actually. When you order a Masterpiece you automatically get registered as a “Collector” with Oska Murano and the full benefits associated with this which includes the right to have the 1 of 1 certificate and the ability to check how many pieces have been made and where these are in the world.

**PLEASE NOTE:** *All pieces are numbered and all pieces are made by certified Master Artisans.*

# USING THE BRUSH AND LOOKING AFTER IT

The head is composed of distinctive synthetic filaments, is hypoallergenic and suitable for all skin types, even for the most delicate. Multi-functional and adaptable to the various makeup textures, thanks to the specific combination of fibres. Excellent face powder holding capacity and highly performing in applying oil-creamy products. Very technical for a simple but professional application; extremely silky and pleasant to the touch; cruelty free, vegan and latex free. The benefits are a head which is hypoallergenic, anallergic, delicate on the skin, longer durability and easy cleaning.

For cleaning and maintaining the head, we suggest using poured solid soap for make-up brushes. It is an efficient and easy to use natural cleanser. Its formula is multipurpose and suitable for both synthetic and natural hair brushes, as well as make-up sponges and blenders. It has unique characteristics with only simple and completely vegetal ingredients. It is neutral, moisturising, enriched with essential oils and has a light pleasant scent. It works well with both warm and cold water, eliminates dirt and germs that usually remain on the make-up applicators. The soap is poured straight into a customizable aluminium tin with a screw type lid. It does not contain either colourants or irritating substances.

This soap perfectly cleans brushes, accessories and make-up sponges from the rests of make-up products, even in the case of creamy textures. It prevents the brushes natural hair from hardening and drying up, thanks to its conditioning ingredients which also have a healing effect on the tuft by maintaining and improving its softness, flexibility and shininess. With synthetic hair and sponges, it cleanses delicately but still very deeply. The system of pouring the soap in the tin allows using the product easily and completely, without any waste. After drying, brushes and sponges will be clean, soft and delicately scented. The poured soap is entirely produced in Italy, cruelty free, vegan and easy to carry with you when travelling.

For the jewellery aspect of the brush being the ferrule, ring and handle, do not use abrasive products or clothes and do not rub to try and bring a shine back. We recommend you take these to your nearest outlet you acquired them from or any respectable jeweller for a clean. Having professionals clean your brushes will avoid issues.

Alternatively, you can send back to us and we will refresh them completely and return them to you as if they were new. This is a chargeable service.
