XIAMEN C&D INC. 厦门建发股份有限公司

C&D Inc. (stock code: 600153) is a modern service-type enterprise with supply chain operations and real-estate development as its dual main businesses. Its businesses starting in 1980, the company was established exclusively by Xiamen C&D Group Co., Ltd. and listed at Shanghai Stock Exchange in June 1998. Since listed, the company has developed rapidly over consecutive years, with its operating revenue, net profit, net assets and other major financial indicators growing at annual average rate of nearly 30%. In 2020 it realized operating revenue of 432.95 billion CNY and after-tax net profit of 8.18 billion CNY. As of the end of 2020, its total asset was 387.16 billion CNY and net asset was 86.06 billion CNY.

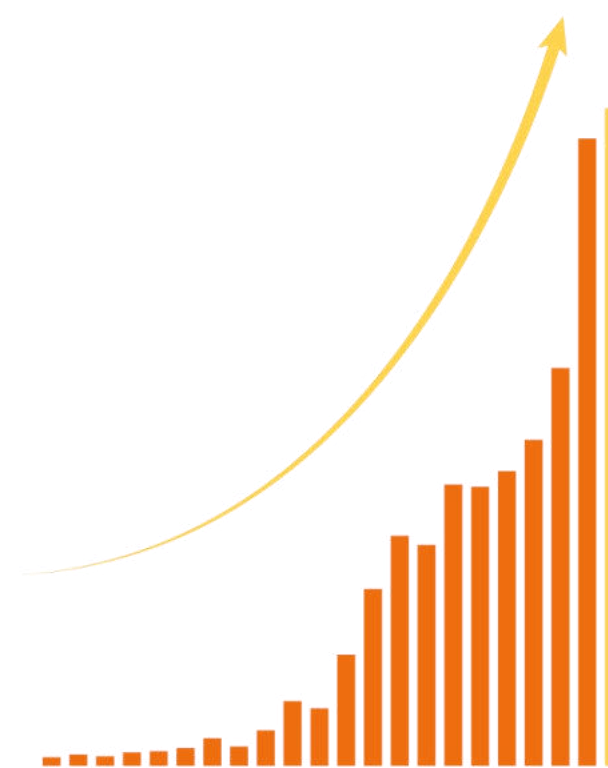

The company has been rated as “AAA level credit standing enterprise” and “TOP500 of China (ranking the 31st place in 2020)” over consecutive years; it has been elected into MSCI index system constituent stocks, Constituent Stock of CSI Smallcap 500 Index, and corporate governance index sample stocks of Shanghai securities.

设计企划和市场分析

Match with professional design team according to customer's product type to complete customer's product development related requirements.

Including from the customer's product positioning to recommend a new season of popular colors, trends, and design elements of the planning.

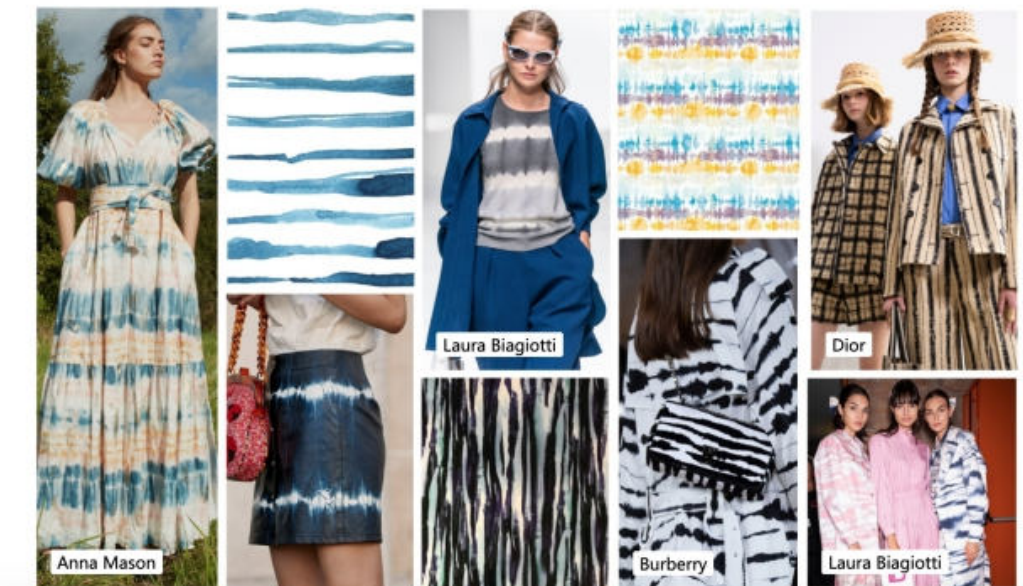

Trend Colors Spring/Summer 2021

| | | | | | | | |
|-------------|-------------|-------------|-------------|-------------|-------------|----------------|-------------------|
| Ivory Cream | Fall Leaf | Honeydew | Jade Cream | Fanfare | Lilac Hint | Chinese Violet | Tillandsia Purple |
| 13-1011 TPX | 15-1132 TPX | 12-5808 TPX | 15-6123 TPX | 18-4936 TPX | 13-4105 TPX | 18-3418 TPX | 19-3638 TPX |

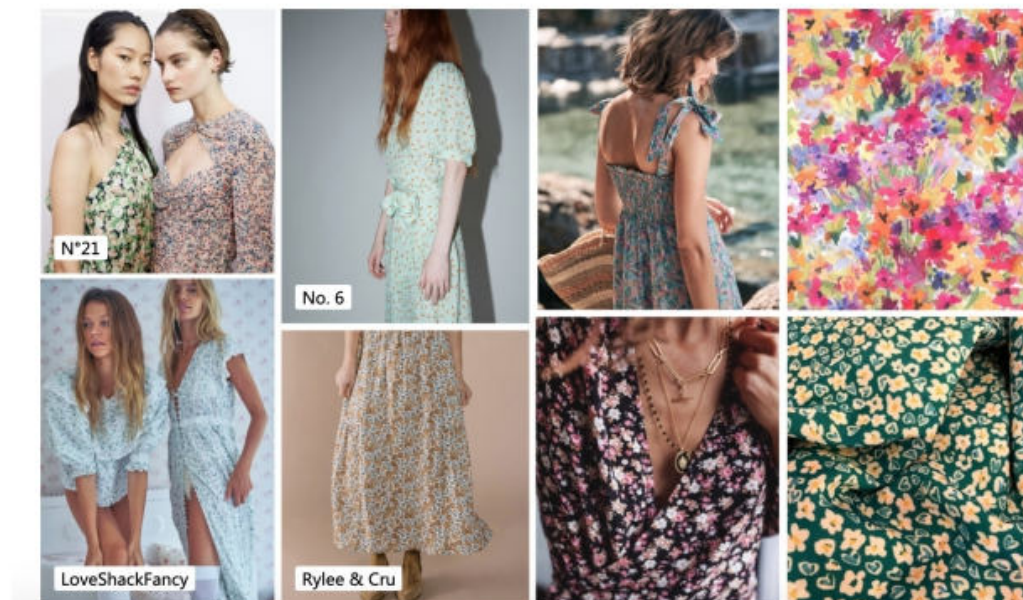

印花流行趋势-1.

将经典的扎染工艺以前卫的柔和条纹呈现出来，失真染色在市场上大获好评。用柔和油墨笔触翻新经典条纹，用浅色保持配色简约，散发出海洋气息，适合打造航海风系列。用竖条纹提升上衣和连衣裙的美观度。

印花流行趋势-2.

新草地风格印花和密印碎花是跨季印花的关键。可持续染色工艺兴起推动了碎花的发展，可用未加工的棉、亚麻、大麻纤维等材质的底布，营造自然朴素的质感。

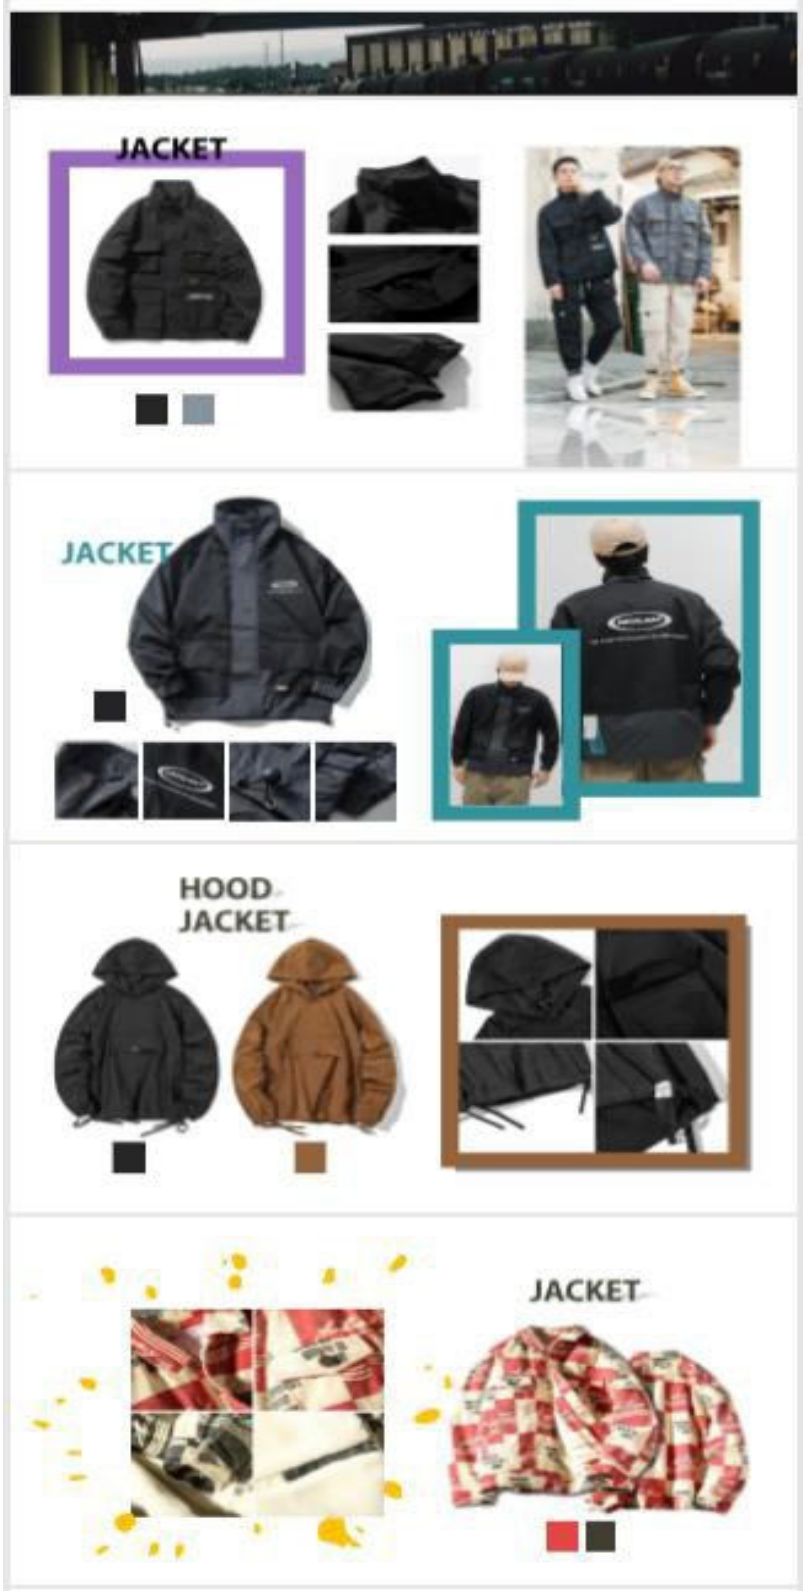

To provide customers with professional style design drawing and clothing recommendation and recommendation of the production of atlas.

Design and Simple recommend

图稿设计和款式推荐

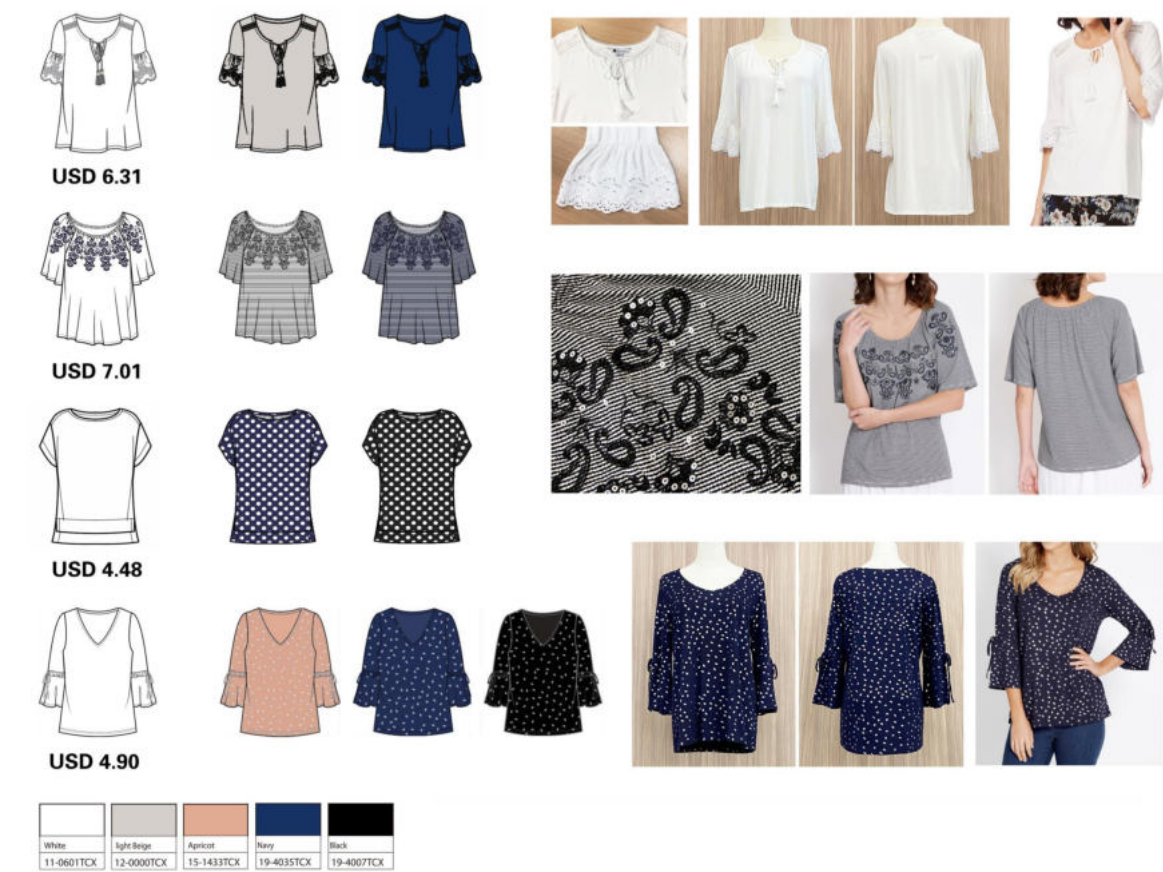

- Option 1、According to customer requirements to complete the design drawings, and according to customer requirements to adjust the arrangement of proofing;
- Option 2、According to customer needs, select the existing sample pattern, change the fabric and modify the design details, arrange the proofing.

High quality sample making and 3D intelligent service

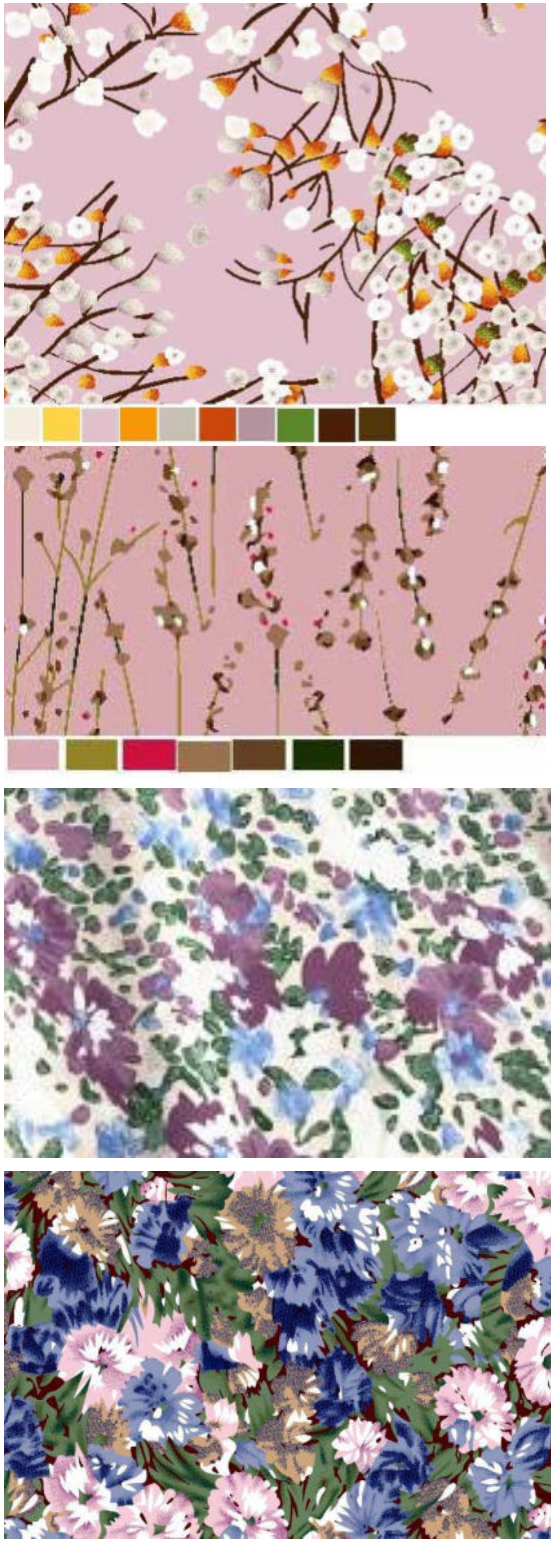

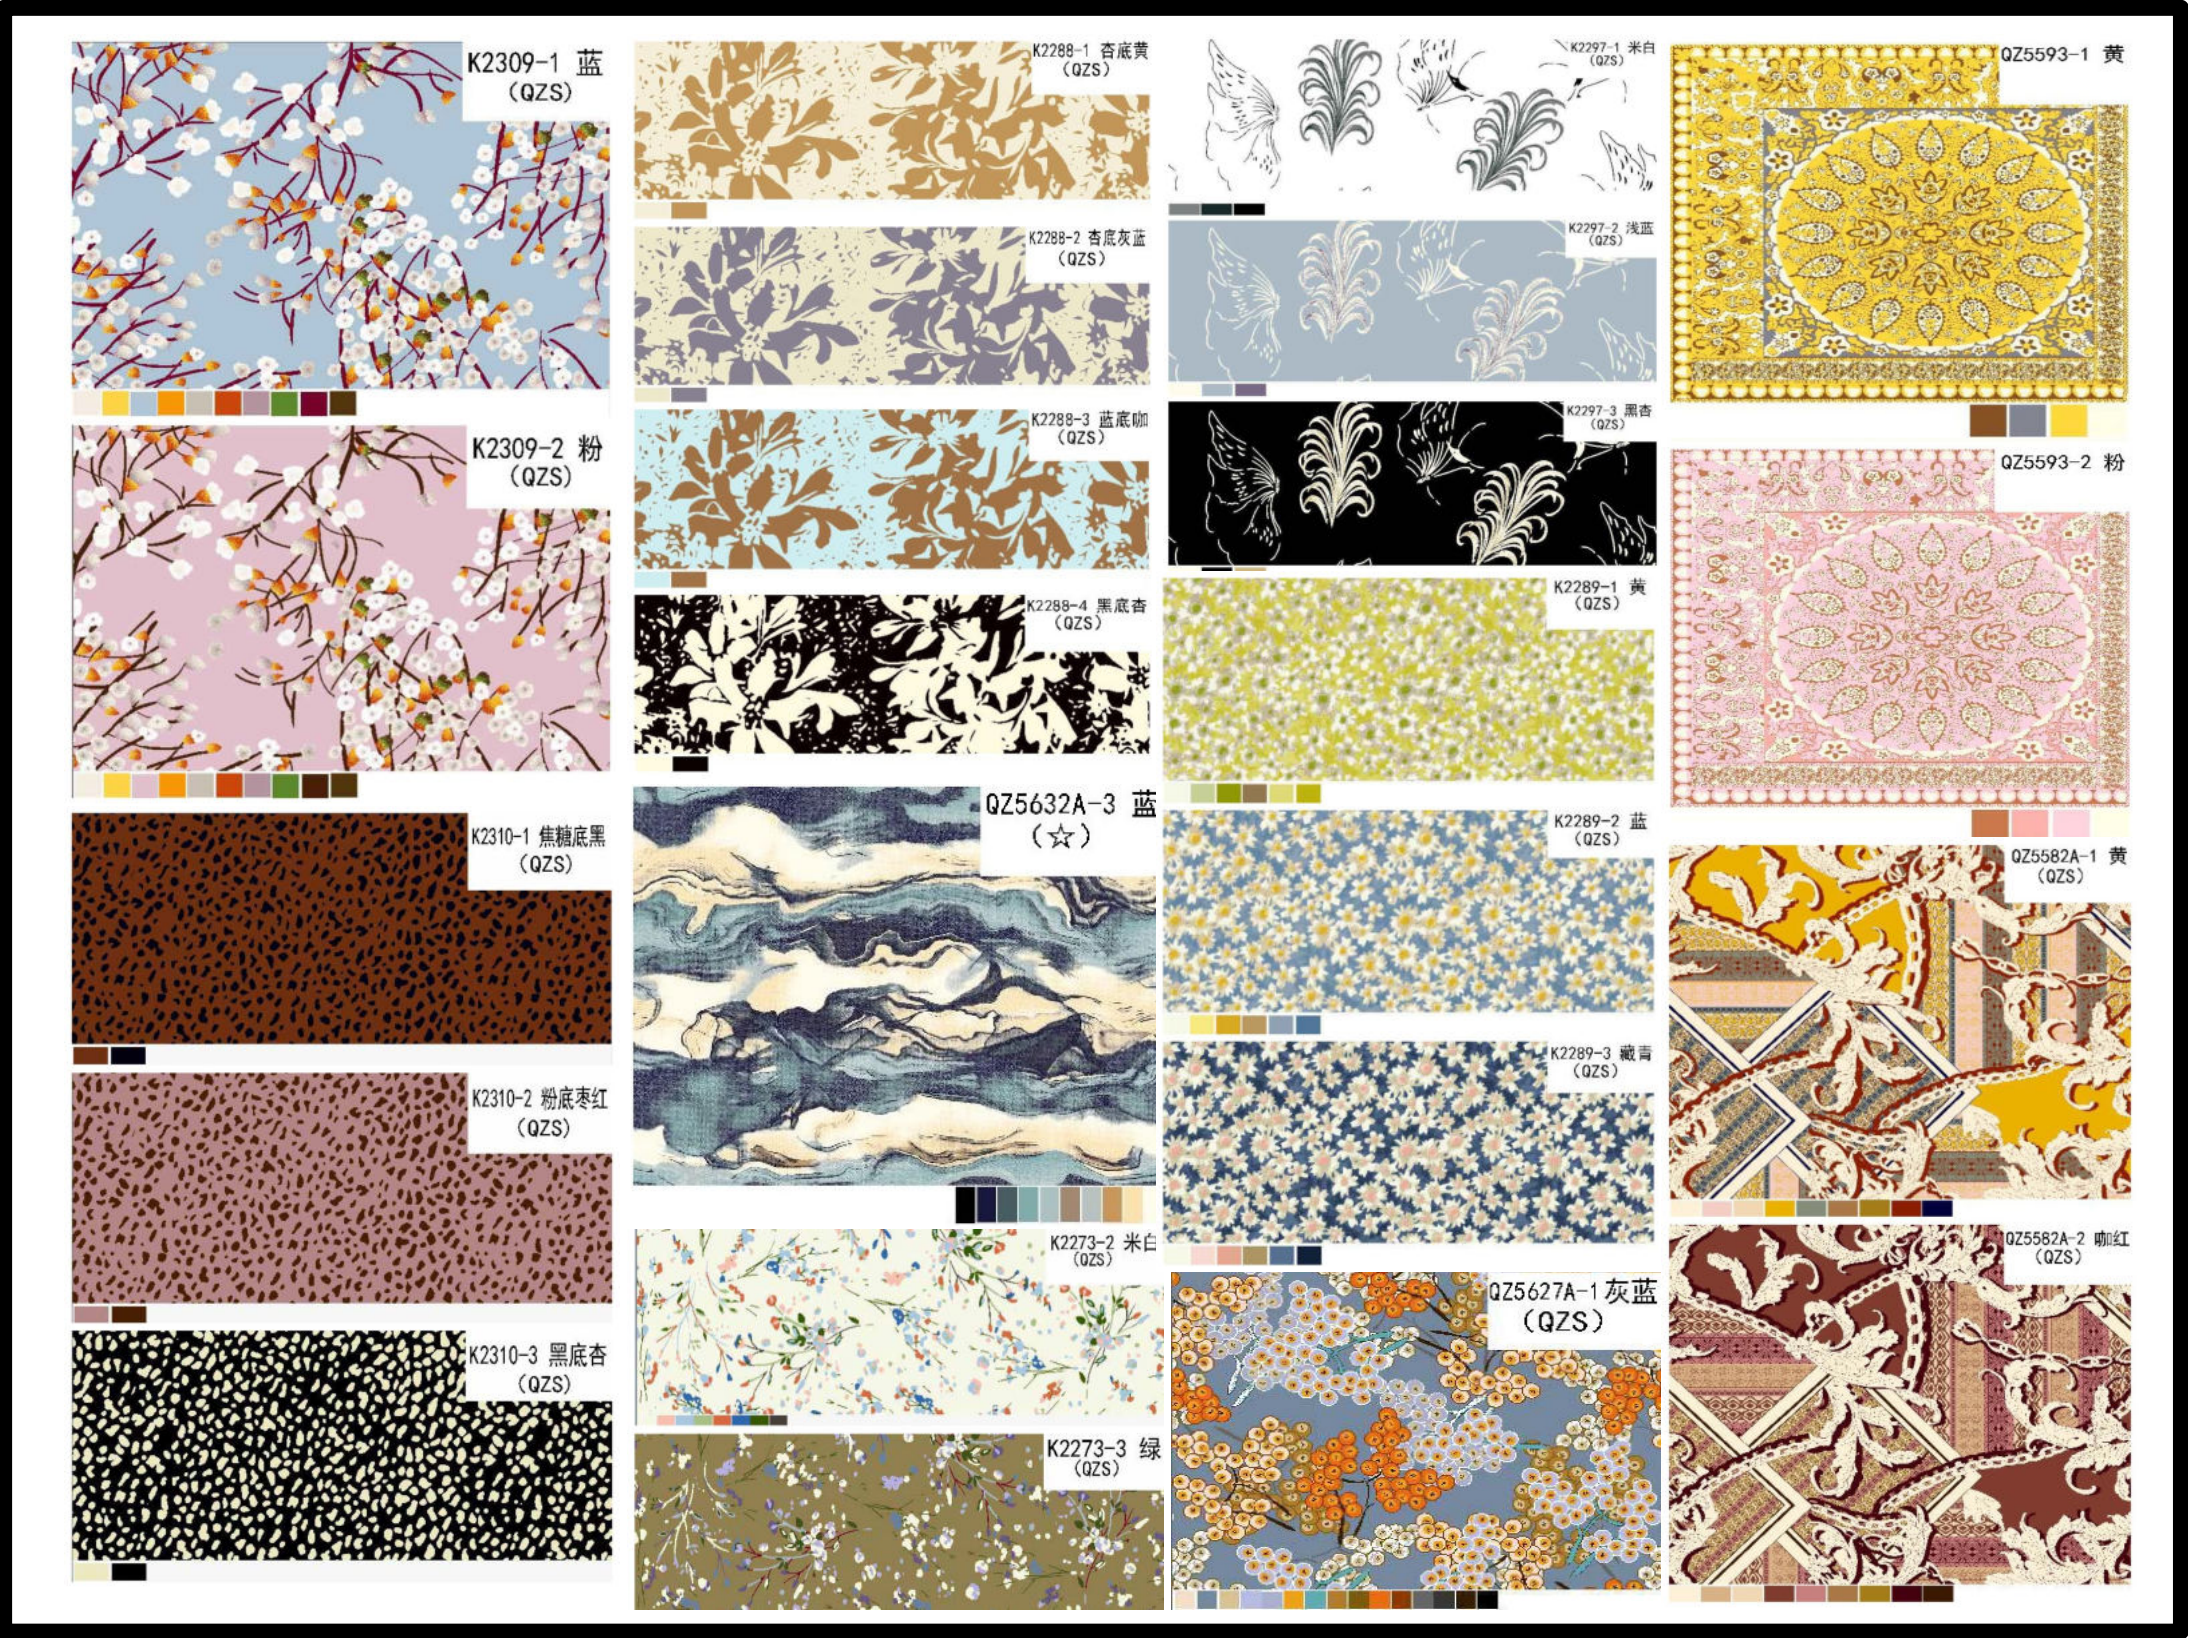

高质量打样和3D智能化服务

FABRIC RESEARCH & DEVELOPMENT

面料研发

- Quick response to market needs with independent R&D capability.
具有快速的市场应变和自主研发能力
- Understanding the market and being able to offer product as per most brands styles.
迅速提供与客户相吻合产品
- Resource integration and supply chain cost control.
资源整合，控制供应链成本
- Develop & research new patterns and fabrics all year round.
全年自主开发/收集新花型以及新面料

Fabric and Accessory Resources

面辅料资源介绍

Strong fabric search ability, and rich fabric supplier resources, fabric types cover polyester, rayon, flax, satin, coarse needles, woolen cloth, etc., order operation mode by the combination of customized fabric and spot fabric.

Woven polyester fabrics perennial new type of spot supply, and has a strong pattern development ability.

Commonly used fabric categories are: chiffon, georgette, color, messy, etc., can be used for the style of blouse, shirt, half skirt, dress.

Green environmental protection

绿色环保

Environmental protection has always been our biggest goal, advocating green environment and supporting sustainable development. For a long time, we have been purchasing sustainable renewable fabrics, developing sustainable products, and creating green production and green environment.

SMAWARM

The use of oyster shell can achieve the effects of waste reduction, resource utilization and cost reduction.

- ※Fast deodorization, not easy to remain peculiar smell,
- ※Anti bacteria and mildew effect,
- ※Antistatic,
- ※Wool handle,

THINSULATE

Compared with the traditional thermal insulation materials, theTHINSULATEis 1.5 times the thermal insulation property and two times the other high thermal insulation materials. The new sherry material can retain more air and heat between fibers. And in the same size of space, it can be filled with more fibers, so it can reflect more and more effective human thermal radiation.

COOPERATION

新型高科技
生物绒™
made with
杜邦 Sorona®

Sofeelate®
So, feel it, feel better. Since 1980

Presentation

- As the core material of Sustans™ filler, DuPont™ Sorona® is made in part from annually renewable plant-based ingredients using a proprietary fermentation process, which is not only a great reduction of dependence on fossil fuels but also more energy saving and environment friendly. Production of DuPont™ Sorona® uses 30 percent less energy and releases 63 percent fewer greenhouse gas emissions compared to the production of Nylon 6.
- DuPont™ Sorona® renewably sourced polymer is one of the first 11 products approved to use the United States Department of Agriculture(USDA) new product label on certified bio-based products. Please visit <http://www.biopreferred.gov/> for more details.
- Sorona® passed Japan's BP certification.
- Sustans™ received Oeko-Tex Standard 100 Certification, the most stringent Class 1 certification.

From starch to 1, 3-Propanediol (PDO)

In the natural environment:
Starch → Fermentation → 1,3-PDO

In the industrial environment:
Only need one discharge tank

Renewable Plant > BIO-PDO™ > Sorona® > Sustans™ fiber > Sustans™ filler > Garment

Features

- Softness, fluffiness, has supreme warmth retention property.
- After the test, Sustans™ Filler is washable.
- Sustans™ filler is penetration proof, and can be blown by machine.
