**Sustainable.  
Handcrafted.  
Minimal.  
Be BB.**

**An Italian Experience  
Designed to Last.**

**Bottega Bernard** is a **sustainable sartorial** clothing brand for **women** and **men**, born in 2021 to realise a dream: to **combine traditional tailoring** practices with **respect** for the **environment** and **people**.

BB is deeply rooted in the **heart of Tuscany** and its artisanal traditions, known for using **high-quality raw materials** and **skilled craftsmanship**.

The brand practices the ancient art of **"handmade"** and passionately searches for the best **Eco-Friendly** and **made-in-Italy fabrics**.

Our approach **balances tailoring** and **minimal elements**, providing an **Italian experience** designed to last.

# Upstairs

**Upstairs** is the Fall-Winter 2023 capsule collection created by **Bottega Bernard** exclusively using **end-cycle fabrics** and **yarns**.

Upstairs, literally “di sopra, al piano superiore”.

**Bottega Bernard** aims to enhance the **intrinsic meaning of the word**

**Upstairs**, going beyond its literal one: a higher level of knowledge and awareness that allows us to **look beyond appearances** and superficialities.

Therefore, the Upstairs collection has been made solely from end-cycle materials, **to give new life** to the finest deadstock fabrics and yarns and offer an alternative that **combines luxury** and **sustainability**, where the garments worn become a means of expressing one's exclusivity and attention for the world around us.

The soft lines and distinctive tones of Upstairs, with nuances ranging from cream to orange, sand to brown and blue, converge in a **versatile** and **elegant capsule collection** whose uniqueness allows for a **new standard** where **sustainable** and **luxurious meet**.
