Made with Joy in Transylvania

We have implemented from the start, the concept of 'express yourself through art and wear it', by incorporating words in an illustration, or a drawing, to express what each of us decides to wear and to define the personal image.

A new, modern, tasteful piece of clothing will be made especially for the future customer.

24 — Oversized SHIRTS

It all started 5 years ago, when my mother and I, decided to make some painted and embroidered T-shirts out of passion and love for art.
