### *The World of Monreale Perfumes*

**Monreale** is an international brand inspired by the reality of the moment that respects the basic principles of human existence and our planet to offer according to its potential to the world. Is an international perfume brand that promotes sustainability and supports philanthropy.

Its name came from Monreale Cathedral (groundbreaking in 1172, completed in 1267) in Palermo, Sicily, southern Italy. Thomas Tsavdaridis, founder of the homonymous company recalls: 'I came across the beauty of Monreale Cathedral and appreciated its long history. Being Greek Orthodox, I was so moved by the impressive coexistence of Byzantine art and the Cathedral's Norman, Gothic, Renaissance and Baroque architecture, I decided to name the perfume brand I have created Monreale'.

Our vision is to create a homey atmosphere with the rich scents of incense, that allows you to find happiness in the smallest of things. Designing a new perfume can be compared to creating a work of art: we combine all the right ingredients in order to compose the uniquely appealing character of every single fragrance we create. Monreale was born to reveal the world of scents, creating unique signature fragrances that are carefully designed and composed by the world's finest perfumers.

A perfume with character for your character!

Yours sincerely,

Thomas Tsavdaridis
