Founder & Creative

Director Florence Moshaki grew up in the margins of the Serengeti and in the shadow of Kilimanjaro. Since launching her eponymous brand, she has become

recognized for the comfortable, and affordable wardrobe essentials that every woman needs.

The label is synonymous with simplicity and offers a complete ready-to-wear collection. Signature separates complement distinctive frocks, dresses, and suits, each representing understated elegance.

Moshaki's sustainable approach and commitment to quality and durability distinguishes the brand from disposable fashion that is so wasteful of resources and harmful to the planet. From sourcing, to tailoring, packaging, and distribution, Moshaki operates sustainably.

By focusing on fair employment and the use of traditional handcrafted materials, Moshaki encourages diversity, supports local underrepresented groups, and harnesses their skills to create garments with a modern aesthetic and universal appeal.
