KARINA BOND

Karina Bond is a contemporary womenswear brand, launched in 2022 by CSM graduate, L'Oréal Prize winner, and Sarabande Foundation scholar Karina Bond. Her approach is liberated and ethereal, providing escapism and a moment out of the mundane.

As designer and artist, Bond's works are born of emotion - explorations of what lies beneath the surface in the depths of the imagination. A hedonistic, blissfully fresh viewpoint on fashion manifests collections which are both beautiful yet unconventional, challenging, but at ease. This universality of the visual arts, transcends the boundaries of language and touches the heart & soul.

Through a blue-sky approach to textile and silhouette experimentation, Bond captures the essence of the subconscious in pieces which skilfully balance the avant-garde & the commercial, engaging the viewer & wearer alike.
