# SLOW CRAFT MOVEMENT

A lifetime immersed in art and craft led founder Jenny Lockton to begin Bohemia Design in 2006, connecting grass-roots artisans with a global audience seeking handcrafted homewares and accessories. Jenny's belief in the value of slow craft and sustainable production has seen her travelling the world for more than 25 years, collaborating with highly skilled artisans across the globe.

BOHEMIA DESIGN is a UK based company with headquarters in the historic city of Edinburgh, Scotland. For over 25 years we have worked collaboratively with highly skilled artisans in India, Morocco and Turkey to design and produce contemporary handcrafted homeware and accessories.

Our philosophy sees us dedicated to a belief in the beauty and integrity of goods made by hand using age-old traditional techniques and sustainable, locally sourced materials.

The deep bond formed with our suppliers helps ensure a consistent quality of production and the ability to develop unique, ethically made wares.

The Bohemia team in Edinburgh handle each wholesale order personally and with care, serving over 1,000 independent stockists worldwide.
