Read about the women on our homepage

MADE BY HAPPY PEOPLE

Who are the people behind timi's slogan "Made by happy people"?

At timi of Sweden, we take pride in being a company run by women. Both in our creative office in Sweden, and our factory in the Philippines, the majority of the staff are women.

We care about the people we work with, how our products are made and the positive impact we leave in the world. Our factory is spacious and provides a good working environment for our employees, so that they can take pride in their work, and be happy and comfortable while working. We provide our employees with free food at the workplace, flexible work hours and covered transportation costs. We also help out with their children's school fees.

In everything we do, we want to leave the world a little bit happier.

ABOUT

TIMI OF SWEDEN

Timi of Sweden was founded in 2009 by Tiffany and her husband Mikael. The name timi comes from the play of words with the first two letters in each of their respective names.

They run this small business in the Swedish countryside while looking after their 3 boys who are 7, 11 and 13 years old.

At timi we only produce our jewellery after each order that our partners place, therefore minimizing our carbon footprint and avoiding dead stock.

Tiffany Drennow, CEO of timi of Sweden
