ORCHARD SCULPTURES

CREATE A CLASSIC STATEMENT IN THE GARDEN

ORCHARD
SCULPTURES
UNIQUE GARDEN STRUCTURES

Uniquely striking, ingeniously versatile or ever-so slightly quirky?

However you describe the Orchard range, it's proved to be a retailer and consumer favourite! Whether you choose the fruitful Apple or Pear designs, or favour the Woodland Acorn, each piece makes a spectacular addition to any garden (or home).

Available in six sizes, each item can be used as a standalone sculpture, a support for climbing plants in a pot or border, a topiary frame or why not separate the halves and place a planted pot within the ornament – there's no end to the versatility of these beautiful Sculptures!

Each piece is handmade with a durable antique effect paint finish, complimenting the natural form of the sculpture. Apples feature a Verdigris patina; Pears are finished in a stunning Pewter effect and the Acorns display a warm Bronze look. An oval information label is then added in a fun "nod" to the oval stickers found on fresh fruit!

1. *Use as a support frame for climbing plants in a pot or the garden.*
2. *Grown buxus through the centre aperture to create stunning topiary features.*
3. *Separate the halves and place a planted pot within the ornament.*
4. *Store cushions, outdoor toys or balls inside.*

FREE Point of Sale Board available

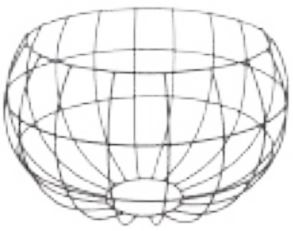

59.4cm high by 42cm wide.

GARDEN DECORATIONS

ORCHARD TRELLIS

CREATE A CLASSIC STATEMENT IN THE GARDEN

ORCHARD
SCULPTURES

TRELLIS

This striking trellis will make an appealing statement piece for climbing plants in the garden or attractive wall art in the home

This beautiful trellis is part of the Orchard sculptures range.

Orchard Sculptures are striking 3D ornaments in stunning designs inspired by nature, such as Apples, Pears & Acorns.

This feature trellis brings the same sense of style to smaller spaces such as balconies, terraces and courtyards.

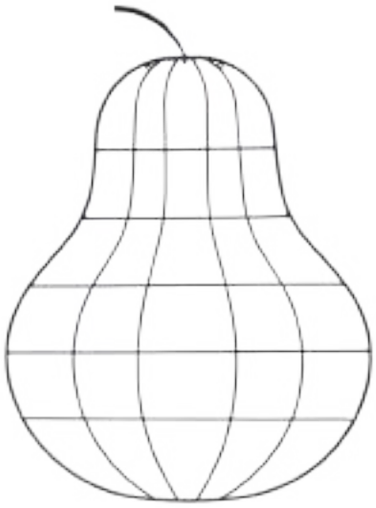

Whether creating a beautiful garden feature with climbing plants, or simply using as wall art, this trellis is sure to become a talking point in any garden.

"Perfect support for climbing plants helping them to establish quickly"

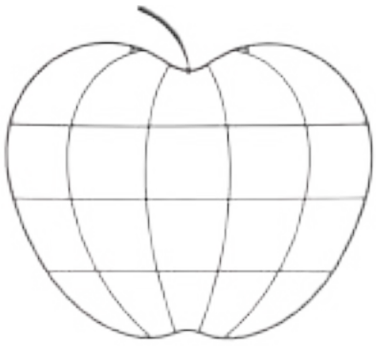

Each piece features integral 'stand off' feet, allowing plants to climb easily around the frame.
