DEMONSTRATION IS KEY TO SECURING A SALE

HOW TO APPLY

LOX Locking Earring Backs
are very easy to apply.

1. SLIDE ON

To fasten:
Slide LOX onto
your earring post.

Do not force LOX onto your earring – they should slide on easily.

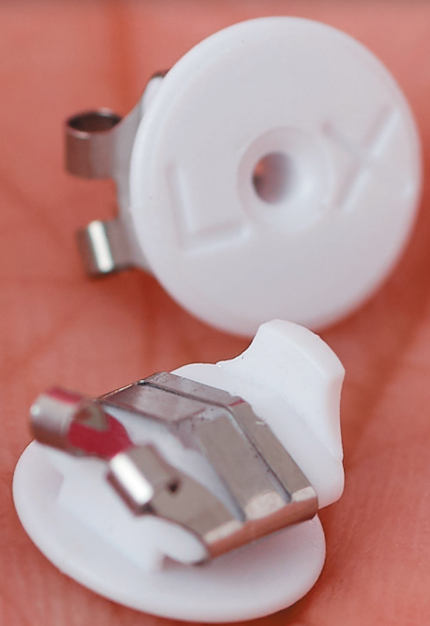

NEVER squeeze the metal clip when applying LOX (or they will not work!)

Before wearing, always check that LOX work on the earring they are to be used with. When applied correctly you should not be able to pull them off.

This short online training video shows you the most effective ways of showcasing LOX to your customers.

LOX

LOCKING
EARRING BACKS

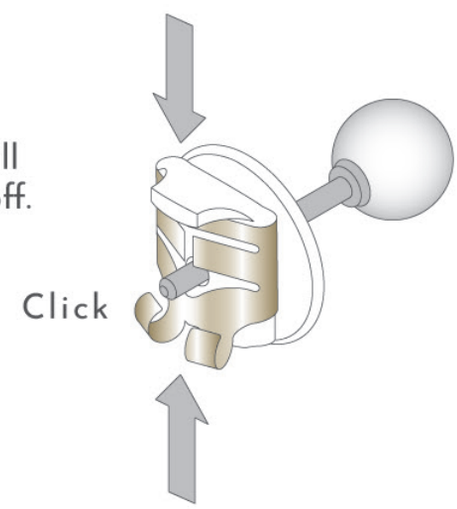

Available in Gold Tone,
Silver Tone and Rose Gold Tone.

HOW TO REMOVE

LOX Locking Earring Backs
are very easy to remove.

2. SQUEEZE OFF

To remove:
Squeeze the metal clip, then LOX will easily slide off.
