WELCOME TO

Autumn Winter 26/27

A season defined by *elevated* essentials and the signature *supersoft* touch.

The FIKA Autumn Winter 2026/27 collection brings together our most loved silhouettes and bestselling fabrics, with supersoft comfort at its core. Crafted in soft touch qualities, each piece is designed to feel considered, effortless, and enduring.

Recognised FIKA shapes return, from wide leg trousers and relaxed t shirts to the satin slip skirt and signature wide sleeve top. Luxe tailoring and heavyweight satin are balanced with an expanded supersoft jersey offering, now introduced in new elevated tops and dresses. The season also introduces the highly requested Ebba in supersoft jersey, reimagined as an effortless comfort co ord.

Knitwear is introduced in bold striped wool blend yarns, developed with the same supersoft hand feel that runs throughout the collection.

Refined colour combinations, including brown and soft blue, pink and brown, red and navy, fresh greens, and subtle grey, bring depth to everyday dressing. Stripes and ginghams take focus in place of prints, evolving into new silhouettes and fabric bases for the season.

FIKA Autumn Winter 2026/27 is a refined expression of elevated essentials, designed to layer effortlessly and build a wardrobe that feels confident, comfortable, and timeless.
