The Libra Company

Welcome to the Spring Fair 2018 Contemporary Capsule!

The specially selected products featured in these pages are examples of the emerging trends of S/S 2018, so dive in and prepare to be inspired.

Invoking the serenity of the night sky, the inky blue of 2017's colour palette has undergone an evolution, forming the backdrop for **Captivating Cosmology**. Bringing sparkle, celestial bodies and space age design to everything from lighting, ceramics, fashion and more, look to the stars for the future!

Back down to earth, **The Natural World** builds on the 2017 popularity of the pineapple, branching out to include botanical prints in all shades of green from muted to tropical. Adding flora to cushions, chairs, soft furnishings and decorations, this trend encompasses natural materials such as linen and silk too.

For those who prefer a more pared back aesthetic, **Modern Simplicity** delivers as promised. Clean lines, muted palettes and a comforting sense of 'hygge', this trend offers the familiar with a modern, stylish twist in kitchenware, ceramics, soft furnishing and more.

Completely at the other end of the scale, explore **Ornamental Opulence**. Featuring rich, bold colours and prints applied to sumptuous fabrics and ornate shapes, this trend is a reflection of the growing desire for global handicraft and the treasures waiting to be discovered in exotic destinations. Think knick-knacks,

unexpected art, inspiring textiles and ceramics.

Presenting two very different dynamics that can work well together, are the trends Colour Pop and Monochrome Artwork. Highlighting colour in all forms, from saturated hues to pretty pastels, **Colour Pop** proves there's something out there to brighten interiors and wardrobes, no matter where you land on the colour appreciation scale.

In contrast, **Monochrome Artwork** presents a classic timelessness, utilising the power of black and white to create a focal point that grabs the

Nordal

Scandinavian design is still a compelling trend for the UK market in 2018

attention. Working across all sectors, monochromatic magic adds an edge of class whatever the occasion.

Bouncing back to fun hues, check out **Pantone Paradise** for inspiration, using playful and energetic colours to bring accessories for the home and fashion to life.

Scandinavian design is still a compelling trend for the UK market in 2018 and **Denmark Dreaming** draws on Danish craftsmanship and inspiration, highlighting brands including Nordal, IB Laursen and VITA Copenhagen that encapsulate the growing trend for minimalism in

design. Bringing a Danish sense of balance and inspiration from nature, Denmark Dreaming is just a taste of what's available at Spring Fair, which offers the largest collection of Nordic brands in the UK, all in one place. It's the place to be to discover the latest offerings for this trend, which looks like it's here to stay.

Something that speaks to the heart for many of us, **Office Chic** is here to lift the tone and make the office a stylish destination. Whether it is a home office or bringing a bit of excitement to desks across the UK, this trend is about introducing a bit of luxury and colour to the mix.

Finally, global trend forecaster **WGSN** have contributed to the trends on display at Spring Fair in our brand new interactive feature – The Atelier. Bringing alive home and gift trends for this year, S/S19 and all the way through to 2020, it's not to be missed! Make sure you book your ticket today at springfair.com to experience the trends in a whole new way.

For now, read on for a glimpse of the year's most stylish best sellers...
