CONTENTS

Dear Smart Partner,

Just like last year, we expect 2021 to be quite a challenge, both personally and economically. The Covid-19 virus has forced us to live close to each other in limited safe circles or in many cases in periods of isolation. Health, family, friendship, community and self-development have become the most important values in all our life's.

With SmartGames we continue to reflect these values. Our "one-player" games and "brainteasers" ensure that children, young people and adults can play entertaining and challenging games. They also enjoy the mindfulness and educational benefits of the gameplay. With our new "multiplayer" games, they can now enjoy the fun of playing with friends and family with the subliminal educational benefits still apparent in a very relaxing way.

In the Autumn last year, we launched our "Up for a Smart Challenge" marketing campaign, which continues to be very successful online and offline. In 2021, we will continue to invest in the development of our brands through a complete 360° marketing programme to the consumer with powerful in-store presentation and support.

Our construction lines SmartMax and GeoSmart have also had a strong year and with our new lines we have won many international awards, just as we have with SmartGames. In our current line, 12 SmartGames and 6 Smartmax items have already received recognition, including "Toy of the Year in Belgium and the Netherlands".

Despite the influence of the Covid-19 virus, our sales increased worldwide. For the coming years, we plan to accelerate this growth with the continued development of new products in all categories. You will find them in this catalogue as part of an award winning and highly recognised brand range that has established an important place in the toys and games market.

We thank you for your resilience, positivity and close cooperation and together we look forward to building our business for all our futures.

Up for a Smart Challenge!

With warm wishes for a successful and healthy 2021!
