# DA VINCI SERIES

The Da Vinci Series of plastic kits are easy to assemble, require no glue, no paint and no batteries! These kits are based on some of his innovative designs.

## DA VINCI FLYING MACHINE PLASTIC MODEL KIT

Leonardo da Vinci's flying machine inspired by birds. The wings move by converting rotary motion to reciprocating motion.

Easy to assemble plastic model kit from Academy, paint, glue and batteries not required.

**PKAY18146**

## DA VINCI CLOCK PLASTIC MODEL KIT

The clock uses the pendulum's weight as its power source. Power is harnessed from a horizontal rotary pendulum design. Clock speed is controlled by adjusting the weight and balance of the pendulum. Assemble the clock in either a wall mounted or standing configuration.

Easy to assemble plastic model kit from Academy, paint, glue and batteries not required

**PKAY18150**

## G.E.T. CLOCK PLASTIC MODEL KIT

Inspired by the principles of Leonardo Da Vinci, the G.E.T. Clock has incorporated the mechanism of the real time pieces. An escapement is a device in a clock or watch that controls the motion of the gear train and transmits the energy from the movement to the pendulum or balance wheel. A tourbillon is a portion in a mechanical watch and is used to increase the accuracy by minimizing errors due to the effects of gravity.

G – gear system rotation  
E - escapement mechanism  
T - tourbillon movement

Easy to assemble plastic model kit from Academy, paint, glue and batteries not required

**PKAY18185**

Within our portfolio we also have a great selection of well-known plastic kits brands, that we hold exclusive UK distribution rights for. We source models and accessories from all over the world from brands such as Trumpeter, Academy, Pegasus, plus many more.

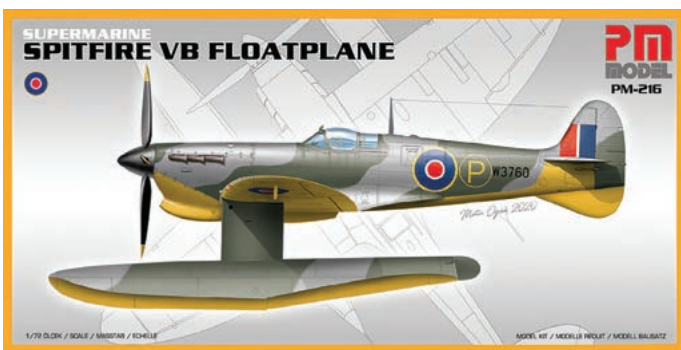

From a 1/48 scale Spitfire to a 1/200 scale Titanic, we have kits available in a wide variety of scales and genres

**HMS HOOD 1941  
PLASTIC MODEL KIT**

L: 1318mm, W: 163mm. Total Parts: 1490+. 1:200 scale plastic model kit from Trumpeter, requires paint and glue.

**PKTM03710**

**SUPERMARINE SPITFIRE FLOATPLANE  
PLASTIC MODEL KIT**

1:72 scale plastic model kit from PM Models, requires paint and glue.

**PKPM216**

**SUPERMARINE SPITFIRE FLOATPLANE  
PLASTIC MODEL KIT**

1:72 scale plastic model kit from PM Models, requires paint and glue.
