### *2021*

For over 25 years, Ascalon Design Ltd. have been at the very forefront of the design and development of wrought iron garden furniture and garden giftware in the UK market.

Each year we launch a huge variety of stunning wrought iron furniture and structures, from benches and dining sets to arches and gazebos, which can be found in gardens across the UK.

We have pioneered a host of products from bistro sets to garden mirrors and we continue to create innovative pieces with a 'classic' aesthetic, all at affordable 'impulse buy' price points.

Alongside our furniture ranges, we supply a huge selection of giftware, including over 25 different outdoor mirrors, seatpads in more than 30 fabrics, and a vast range of garden decor including plant stakes and trellises, bird feeders, lanterns, windspinners, signs and cast iron animals.
