MOSNEY
MILL
HOME AT HEART

Welcome to Mosney Mill

The moment Emma Sutton drove down the bumpy farm track to Mosney Barn she knew the place was special...

Home *at* Heart

Mosney Mill is a beautiful range of kitchen, homeware, stationery and home fragrances taken from the illustrations of Lancashire based artist Emma Sutton. Emma's drawings are inspired by her beautiful home at Mosney. Working in her garden studio the hedgerows are teaming with robins, blue tits and an assortment of finches, whilst the eleven acres of land are home to roe deer, pheasants, ducks, the odd rabbit, not forgetting the family bunny Dobby and Atticus and Tobelerone the Mosney cats.

When warmer days are approaching Emma's family plant a one-acre wildflower meadow where bees feast upon the pollinating plants providing opportunities for Emma's observational bee and flower drawings reflected in a number of her ranges. Inspired by the wildlife and from the gorgeous scenery she is immersed in a range of whimsical animals began to emerge, each with a story and a special place in the Mosney Mill range. Emma is passionate about supporting UK manufacturing, working closely with her textile, ceramic and stationery producers ensuring that exquisite design and supreme quality are her main focus.

Whilst the family were renovating the Mosney land they discovered that the ground had previously been the site of Mosney Print Works.

In the late eighteenth century Mosney Print Works was responsible for great innovations in the printing of Lancashire calico cloth enabling printing in six colours to be introduced. This invention, which it has been argued by historians was as important for the finishing of fabrics as Arkwright's Water Mule was to the manufacture of the base cloth, paved the way towards modern day fabric printing. Emma believes that this was a sign that she should bring print back to Mosney.

Emma and her team are passionate about the heritage of her family home at Mosney taking immense pride in the design, high quality and quintessentially English range of Mosney Mill products

For Emma 'Home at Heart' really rings true!!

"It feels incredible to be doing what I love most at the place I love the most. I love seeing the designs come together and to be able to show them to other people. I couldn't be happier that the Mosney creatures and environment that I have included in my range are adored by so many people."

Emma Sutton.

Wildflower Seed Cards

Wanting *more* than a greetings card?

Then send a Mosney Mill wildflower seed card

A living gift encompassing hope for the future. All seed cards are printed on eco-friendly, non - GMO wildflower seed card paper that when planted produces a mini meadow of pollinating plants to attract bees into gardens. Each card is supplied with a 100% recyclable brown Kraft envelope and protected by 100% compostable clear packaging, emphasising our environmental integrity.

MARMALADE OF LONDON MOSNEY MILL BOTANICALS

Marmalade of London and Mosney Mill share a love of the English countryside and the endangered Bumble Bee.

Working together we have collaborated to create a home fragrance collection of candles and reed diffusers which are quintessentially English, bursting with floral notes all lovingly packaged using Emma Sutton's gorgeous illustrations.

The products are produced without animal testing and both companies have a commitment

to make their products recyclable, reusable or sustainable.

The range is also good news for the bees as a donation of 5% of the net profit from all trade sales is given to The Bumblebee Conservation Trust.
