INTRODUCTION

We want to start by saying a **MASSIVE** thank you to all of our customers.

All our cards are designed and printed in the UK on paper from fully sustainable forests.

Cards can come either wrapped in a compostable cello, with a card clasp or nesting with the envelope. Please state your preference when ordering

2020 was a Corona-Coaster of a year for all of us and it was amazing to experience so much support in our industry. What better way of coming together than by connecting with cards?

So we're moving into 2021 cautiously but confidently and with a big splash of colour.

We have a gorgeous new range to show you from the wonderful artist Emma Jayne Designs. Our Buddy and Betty collaboration is a brilliant showcase of Emma's vibrant, fun and kitsch imagery which is bound to put a smile on customer's faces.

Our newness continues with an extension of our core neon designs moving into a larger size. The Big Fab range is bright, bold and certainly catches the eye. You have to see a sample to appreciate how these cards will pop off the shelves.

We have also expanded our Fab neon birthday range with new designs and new colour ways. Plus we've added 18 eye-popping relations into the mix making it our strongest selling range ever!

Finally, our longest running collaboration with mid-century inspired artist Nadia Taylor has had a refresh with seven new designs entering the range. The ever popular range of blank cards continues to go from strength to strength.

As we go to print both Top Drawer January and Spring Fair in Birmingham have been cancelled. However we hope to see you at either PG Live in June or Autumn Fair in September. In the meantime please contact us for any further samples or if you would like to see one of our wonderful sales agents.

Sending you lots of love and laughter.
