Contemporary in design, Halo is the first range by Anton Studio Designs which has been created especially for interior living spaces.

Available in a variety of shapes and colours, they are perfect to add colour to any room.

Every Halo vase is decorated with one of three colours, orange, yellow or blue; each one is then accented with bands of the other colours.

Mouth blown and hand painted, each vase is individually gift boxed – making them ideal for self purchase or gift giving.

## Fizz

First launched in 2013, Fizz was an instant hit... and has only risen in popularity over the last few years. Its unique look is thanks to the jewel colours and the innovative use of bubbles within the glass which make the colours radiate through – especially when filled with liquid.

The popularity of this range is further aided by its contemporary shape, and with the flutes, wines, gins and martinis all having elegant, long stems.

In 2016 we introduced three new items: two generously sized jugs, in blue and purple, and a fantastic set of four shot glasses. In addition to these, for 2017 we have further grown the range to include a set of four fantastic gin glasses. Most recently in 2018 we added a set of four gorgeous champagne saucers.

Each set comprises four colours, and all items are gift boxed.

## Manhattan

A sophisticated, modern barware range, Manhattan is a spectacular collection.

The rounded bowl of each piece, twinned with the heavy and curvaceous base, makes for a uniquely voluptuous assortment.

The thick ice stems and bases create stunning weighted glasses, whilst still maintaining a great clarity.

Manhattan is a full range with not only drinking glasses, but also an elegant decanter too – perfect for your favourite spirit!

We have altered the packaging to reflect this smart range; changing the classic Anton Studio Designs pink sides to a sophisticated grey.

## Midnight Peacock

Inspiration for the Midnight Peacock collection came from the very origins of the beautiful species after which the range is named.

The Midnight Peacock came from specially breeding green peafowls in order to create a desirable creature which was highly opulent and stylish in looks.

The Peacock design is lasered out from the mirrored black exterior, and beautifully highlighted by the rich gold interior which shines through!

Each of the five shapes in the collection are sold as sets of two, and come packed in smart boxes.
