We are **GoodToBee** and proud to be the only British Wax Wraps wholesaler to design, manufacture, and hand wax all our products in-house and here in the UK.

Supporting those around us, big and small, is at the core of how we like to run our amazing business. From our in house team, the cotton workers who provide our beautiful organic cotton, the incredible bees and beekeepers who keep us supplied with wax all the way to our stockists, our customers and most of all to our amazing planet.

We start by being accountable for our actions, and transparent in all we do.

It's **good to bee** making a difference.
