New Arrivals

Autumn 2022

Welcome to our new arrivals

As the seasons change we've introduced 17 new Remaldi styles to reflect the latest colour and optical trends. There's popular animal prints, eye catching colour as well as best selling tortoise and black. New shapes include on trend Hockley with it's oversized statement frame, bold style Ealing and 70's inspired Chiswick. They're all available in 6 reading strengths and come with a quality soft case. We can suggest a range for you or let you hand pick your styles. We hope you love these new additions which complement our core 2022 range.

Eco Friendly Frames - we've managed to source many of our new frames from recycled materials - car head light surrounds and commercial water bottles to be precise! These items are recycled into modified polycarbonate resulting in glasses frames that are durable, strong and lightweight. All our glasses are designed to last but when the time comes they can also be recycled! As a brand we only buy from reputable sources, minimise wasteful packaging and reuse packing wherever we can. But as we've said before we can all do more . . . Enjoy!
