# New Arrivals

Late 2021 / Early 2022

# Welcome to our new arrivals

As the seasons change we've introduced 13 new styles to reflect the latest colour and optical trends. We've got popular animal prints, stripes and eye catching spots as well as best selling tortoise and black. They're all available in 6 reading strengths and come with a quality soft case. We can suggest a range for you or let you hand pick your styles. We hope you love these new additions which complement our core 2021 range.

Just a note on sustainability too which is a hot topic right now (and quite rightly so). Our Remaldi range is designed with a focus on durability, quality, design and optical clarity. Our readers are designed to last and serve you well. We only buy from reputable sources, minimise wasteful packaging and reuse materials and packing wherever we can. We've recently swapped out the recyclable plastic bags which our frames travel in for eco friendly compostable ones. But we know we can all do more going forward . . .
