2021

At Opticaid we pride ourselves on selling Remaldi quality ready reading glasses that appeal to both the design conscious and classic customer. Our range has a broad appeal and is suitable for tourist attractions, gift shops, fashion boutiques, department stores, pharmacies, garden centres and stationers. It also sells well for our online customers.

Whilst the demand for quality ready reading glasses continues to increase, so does our range. We ensure we supply an extensive mix of womens and mens styles, updated regularly to reflect current colour trends and optical fashions. Our plastic and metal reading glasses cost and retail for the same great price, with RRP's from only £14.00. We like to keep things simple!

Opticaid was founded in 1989 and has an established professional team which prides itself in offering flexible and friendly customer service with a focus on top quality optical products. As well as our Remaldi readers we supply Remaldi sunglasses, overglasses, optical accessories and gifts such as fun spec holders, and the best selling aluminium wallet range.

We have a great selection of display stands with manageable initial order quantities allowing you to repeat on the lines that sell well for you. There are no minimum order quantities or pack sizes for repeats, ensuring you remain in control of your inventory levels. At Opticaid we can also provide a merchandising service for multiple stores enabling you to keep your administration time to a minimum.

We are happy to take orders by telephone, email, fax or our website. We can suggest a range for you, based on your customer base or let you hand pick your styles. It really is up to you. For more information on our glasses, services or trade shows just contact our office. We would love to hear from you.

To keep up to date with all our latest news and product launches you'll find us on Facebook, Instagram and Twitter. Hope to see you there!

BlueVue[®]
Glasses with Blue Light Filter Lenses

bluevue[®]

Advanced lenses with UV & 30% HEV (High Energy Visible) blue light filters

- Helps reduce visual fatigue and discomfort from computer monitors, tablets and smart phones
- Makes screen viewing more comfortable
- Ideal for web browsing and gaming
- Ideal to use before sleep as evidence suggests blue light can disturb sleep patterns
- Available as non-prescription and reading glasses

overglasses

- Designed to be worn over prescription eyewear
- Converts your glasses into sunglasses or night driving glasses at a fraction of the cost
- Full UV400 polarised lenses
- Wrap around protection
- Ideal for general use, driving and sports
- Polarised lenses help reduce glare, improve clarity and eye fatigue
