Our Story

In 2017 our then 21-year-old founder keely spotted a gap in the market for a premium product that could make her home smell like her favourite bath products.

Armed with pure passion and excitement keely started making wax melts from her kitchen with sales growing rapidly until, in december 2018, the facebook shop sold out within moments of announcing new stock.

By mid 2020, Sassy Shop Wax had grown to inhabit a 5,300 sq foot warehouse in Bristol, employing 20 members of staff and enenerating company-record-breaking revenues purely from online sales every month, fueled by a unique blend of wax and extensive range of scents.

Having grown so rapidly from humble beginnings, sassy shop wax brings a fresh, ambitious energy, a nurturing, down-to-earth culture and aims to add value to our customers in any way possible- from £1000 giveaways, to adding free products to customers orders as a surprise when they tell us that they love a scent so much - community and customer service is at the heart of what we do.

Why Wax Melts?

All of our Sassy Wax melts are handmade in house by the sassy team in our bristol workshop. We have a library of over 300 scents and release new scents to wholesale every month. We create exclusive sassy scents that cannot be found anywhere else.

Wax melts are far more cost-effective than candles, with the scent from 1 segment typically lasting 12 hours.

Simply pop your favourite wax in a tealight or electric burner and melt the wax to release the fragrance, filling your room with a beautiful aroma.

Consistent customer feedback is that our wax melts are stronger and longer-lasting than other leading brands on the market.

Why partner with us?

Home fragrance is in demand more than ever and wax melts have exploded in popularity as a much more cost-effective option than candles. As a proudly british company, all production is made in house at our bristol workshop.

Our wax melts inject freshness, colour and a millennial vibe into a market flooded with minimalism.
