Zara Chair - Navy

The Zara occasional chair demands attention as it sits quietly in position dressed in luxury velvet and standing proud on its design-led black metal legs. It has a lot to offer, a spacious deep cushion for ultimate comfort, rounded back which flows effortlessly forming arms but it holds one more design feature it needs to show off – the stunning linear detailing that sweeps from one arm to the other. It's quite happy standing alone showing off its stunning features but will also be happy with the company of a cushion and throw to snuggle up with.

Franklin Chair Taupe

Allure dining belongs to a trend known as 'Industrial Luxe' which simply means products normally associated with industry are now being redesigned into pieces for the home. Allure is based on marble so has a marble effect in white and shades of grey. It also boasts SmarTop® technology which is durable, heat, scratch and stain resistant, very important for peace of mind in a busy home. The tables are either fixed or have an easy glide extending mechanism allowing the butterfly extension to be operated very smoothly. Simply add chairs of choice to make a stunning centre-piece for today's contemporary kitchens or family rooms.

Extending Table 1600mm - 2200mm
Seattle Chair Grey

The Industrial Luxe trend continues to grow and a new addition to this section is the **Chicago dining table**. Available as a fixed or an extending table with 'SmarTops®' Technology, this means it is heat, stain and scratch resistant. The extending table when closed, offers seating for six and when open seating for up to ten. The slender, silver metal legs make tucking chairs under easy. The top is a mottled effect resembling polished concrete in a subtle grey. A fabulous contemporary dining table, just waiting for the addition of seating to make it complete.

The Ohio collection of painted wood dining tables and chairs holds a very practical secret. The table looks like a natural oak top but in fact it has SmarTop® technology which is durable, heat, scratch and stain resistant. A great addition to a busy home giving peace of mind. There are three tables to choose from, a small table for two, round extending and a rectangular extending to accommodate additional guests. There is also a choice of chair designs, also in a painted wood finish, making this range versatile enough to sit within many kitchen and family rooms.

Dining Table 1600mm
Chair Taupe

The current trend hitting the interiors world is 'Industrial Luxe', put simply a mix of materials not normally associated with domestic home interiors. Seattle is an example of this new fresh trend. It mixes a concrete effect with metal resulting in this extremely stylish on trend collection which will sit well in a contemporary space. SmarTops® technology has been used on this range which means that it is scratch, heat, spill resistant and easily cleaned. The soft mottled grey of the polished concrete effect is enhanced by stainless steel strips and a brushed steel base. There is a choice of chair colours to match with any interior scheme.

York Dining

The York range is the answer for all those smaller living spaces. It has been designed to offer practical quality oak furniture at scaled down sizes to fit in with the trends of today. Small dining tables are extending to offer additional space with a choice of sideboards and bookcases that sit neatly against a wall and do not protrude too far into the room. To tie your scheme together a collection of occasional petite pieces are available, some finished off with delicate brushed silver handles. The delicate Ivory/oak or natural oak finish will offer your home a light and airy feel making what space you have feel perfect.

5' Bed Grey

In recent years the bedroom has been elevated to a place of beauty rather than a mismatch of furniture to hide behind closed doors. Today's bedrooms are interior spaces to be respected and treated with love as they offer a much-needed haven to rest and relax. The focal point of any bedroom is the bed, and for this a statement bed is a must. Georgia is that bed. A bold, buttoned, large headboard, with graceful sweeping edges, offering the hint of a winged effect which looks elegant and sophisticated. Also available as an ottoman bed for extra storage underneath. Simply dress with fabulous bedding for a stunning centre piece never to be hidden away.

5' Bed in Grey

Upholstered headboards became popular in the 17th century as demand for comfort increased and the bedroom became a more private and luxurious place to be.

The Lauren bedframe definitely has its roots in traditional design. The fabulous winged headboard is a statement piece framing the gorgeous buttoned detailing on the main panel. The tactile fabric is offered in 2 colours each considering both genders, neutral Champagne and cool Grey. Simply dress with your favourite bedding and cushions to make a stylish centre piece for your master suite.
