PRODUCT COST

Being a new product our first finished goods production cost is high with a minimum order of 1000 units. On top of this the pandemic has brought soaring shipping rates which has effected the product landed unit cost into the UK.

Our cost price is reflected based on these factors above to ensure buyers retain a large margin whilst we still retain the covering charges and expenses in the short term.

Canoff Game

RRP – £39.99

COST PRICE – £21.66

SALES PROFIT (ex VAT) – £11.67

Availability:

Only launched in August this year we have actively worked to get CanOff recognised as a fun packed game with a strong brand awareness.

The first production batch landed in the UK and is ready for the Christmas, Spring and Summer market. Our social media pages are very active and building followers daily.

HOW TO PLAY

It's simple: two teams, two poles, two cans and one flying disc

Score points by knocking the other teams can off a pole. The first team to ten points wins!

Two points for hitting the can clean off, one point for hitting the pole and the can falls off, but, hit the can or pole and the other team catches the can, then that team is awarded a point. But be careful, a mistake knocking your own can off will lose you one point! Additional rules can be applied such as penalties and play with one hand.

Wherever you are and who you play with, Canoff is a thrilling competitive game to play by all ages.

You can play Canoff anywhere with outdoor space, it's a fun game for everyone to enjoy! Let the fun can off battle begin!
