

Onatuf

Bath and Shower accessories created from sustainable plants and natural materials

Olnatur has been created by Max-Link, offering natural Bath and Shower accessories which are designed for everyday use.

Olnatur is an environmentally conscious range designed for Cleansing, Exfoliating and Pampering, our range consists of, but is not limited to...

Scrub Mitts, Brushes, Face Cloths and Sea Sponges.

Our Max-Link factory is located in Ningbo, China and is a fully integrated unit which allows for provision of varied product options leading to competitive prices, consistent high levels of quality control and uniformity of packaging.

We are a ISO:9001 quality manufacturer carrying SEDEX approval.

Exporting since 2002 into UK, Europe, Japan, and USA

Bath and Shower accessories created from sustainable plants and natural materials

Consumers are growing ever more conscious of waste plastic across the planet. This awareness is amplified with societal demands that materials ought to last longer and have less of an impact on the environment.

Olnatur is manufactured from specific materials based on their sustainability and are produced with minimal environmental impact, i.e. no chemical fertilizers are used. Bamboo, Hemp, Ramie, Sisal, Cactus, Sea Sponge and Loofah are some of the natural materials included in our range.

Natural materials are not only better for the planet but are also beneficial to your skin.

Natural fibres and bristles cleanse, exfoliate, scrub, smooth and soften your skin - helping it to remain healthy, beautiful and unblemished.
