THE HOME OF PREMIUM CONFECTIONERY BRANDS

hf Chocolates are renowned as the "Home of Premium Confectionery Brands". We constantly invest time and energy in maintaining this reputation and realise that it's our second main asset as a business. The great people employed in our team being the primary reason for our success.

Like all businesses we have evolved over time, from the outset of the business in the 1950's to where we are now. The acquisition of hf chocolates by Bon Bon's Wholesale Ltd has brought renewed focus and improved range and service. This new brochure is testament to the strides made over a short period of time, but it also demonstrates that we have retained the values of customer focus, excellence in quality, loyalty to suppliers and constant innovation.

At the heart of what we do is top notch, unique and (of course) fabulously tasty sweets! Once again, we have painstakingly assembled an assortment that combines the very best branded confectionery in the market.

We hope you enjoy perusing the range as much as we enjoyed compiling it.

WELCOME TO OUR 2021/22 EVERYDAY COLLECTION

Once again, the team at hf Chocolates and Bon Bon's are extremely excited to present the latest version of our All-Year Round range. We are sure that once you have reviewed the latest offerings you will see that our enthusiasm for all things chocolatey remains undimmed!

During the last year we have sought feedback from many stakeholders in the market, including valued customers, dedicated employees, innovative suppliers and finally the people who make it all worthwhile; consumers. They told us a variety of things. Firstly, and lastly; quality is king when it comes to indulgent treats. We took this very seriously and you will see that our range is comprised of many of the most sought-after confectionery brands in the UK and Europe. Additionally, we were advised that we needed to stay up to date with the trends that many

consumers are following and passionate about. We have therefore bolstered our range of "Free From", Vegan, Fair Trade and environmentally sound products and trust that this meets with approval. One of the key messages we received was that the range should be fresh, vibrant and FUN! We took this to heart as you will see and have introduced great new ranges from Leone Sfumature, Choc on Choc, PopcornShed and Caroboo to name a few!. Take some time also to review our increased range of loose chocolates which have already been met with critical acclaim.

We hope you enjoy reviewing the assortment and look forward to working closely with you in the near future.

We are here, happy and ready to help!

Our sales team are ready to assist in helping you select and reserve stock, for each of our collections.

Please call us on **01937 840670** or via e-mail at hforders@bonbons.co.uk to place an order or find out more!

LOOSE CHOCOLATES

As one of the UK's leading suppliers of speciality confectionery our offering for the specialist retailers is particularly important to us, so we are delighted to be able to now offer extended range of loose chocolates!

Going back almost two decades our own business (Bon Bon's) was seeded from our own speciality chocolate shops and so it's with a particular passion that we're able to offer what we believe to be some of the very best loose chocolate ranges from both the UK and Belgium.

All too often the "Belgian chocolates" that we eat here in the UK are manufactured on a large scale and bear little resemblance to the chocolates actually eaten by Belgians!

This is because authentic Belgian chocolate ranges tend to be made on a lot smaller scale and eaten fresh, enabling the chocolatiers to use fresher ingredients. Our Dumon range is collected fresh on a regular basis to enable us to offer their range which is exclusive to us in the UK. A fresh cream range is also available on request.

We are also delighted to welcome on board the Holdsworth loose chocolates range this year with some exciting new flavours. Their Sir Robin of Locksley Gin truffles are an award-winning favourite.

In addition to our loose chocolate range we also offer a high quality packaging and ribbon selection at the end of this section.

Don't worry if you don't have a premises suitable for retailing loose chocolates we have a number of pre packed options using some of the best selling chocolates across the ranges. Please contact us for more information on these lines.

Bon Bon's have now been working with Dumon as their exclusive UK partner for almost 20 years. Initially and for many years, we purchased for just our own chocolate shops deliberately "keeping them to ourselves" thus protecting our own point of difference!

Over the years as word spread (entirely by word of mouth) we were persuaded to supply a small number of other chocolate shops in and around Yorkshire and today we supply a number of other specialists around the UK, and yet until now, we have never fully released it to the UK market. All our customers have come to us as personal recommendations or having visited Belgium.

Dumon is as authentic a Belgian chocolatier as it is possible to be. They're a small-scale artisanal producer with a team of just seven working under the guidance of Jelle Descamps, the owner. You only need to see the amazing gloss they achieve on their chocolates to see their authenticity. They have four of their own shops including two in Bruges, and supply local chocolate shops within a 50-mile radius.

This is the style of chocolates Belgians themselves enjoy. Locally produced and eaten fresh! Yet, despite the apparently overwhelming amount of Belgian imports we see, this type of individually hand-produced chocolate is (or has been!) almost entirely unavailable here in the UK.

Authentic handmade British chocolates created using only the finest ingredients, sourced both locally & from around the world, to create unique chocolate experiences that deliver truly sensational flavours, tastes and textures.

Brothers Hans and Peter Luder originally from Switzerland are both classically trained Swiss chocolatiers. They set up Lessiter's almost 45 years ago and now with the second generation very much involved this is family business at its very best. They continue to work only with traditional Swiss recipes using fresh cream in their truffles and only Swiss couverture. We think their truffles are quite simply outstanding, we think you will too!

This third generation family business has been creating fabulous chocolates just to the east of Antwerp for almost 35 years. Known for both their creativity and quality, HF have been their exclusive UK partner for a number of years, and we're very proud to be able to represent them again. We have included a number of new chocolates this year and have also managed to agree some slightly more competitive pricing, making this range even more attractive.

KIMBERLEY'S

This family run Derbyshire based chocolatier is run by a father and son team, who have a real passion for their craft.

Bon Bon's have been partnering with Kimberley's for many years now, and so it's real excitement that we are now able to bring them to a wider market. With some fabulously innovative products, their new pudding range being just one example, their chocolates feel almost uniquely British in style, and we believe represent some of the very best...

These can be a unique way to promote your business or to celebrate a special event. You don't have to be a major department store or tourist attraction to have your own coin! We specialise in supplying personalised coins ranging from 28mm to 125mm in diameter and customised with your own artwork.

Minimum volumes and set up costs are higher than for imprinted coins but moulding quality is generally superior. Standard foil colours are gold, silver and copper although other colours are available. Please contact us for further details.

OUR ENVIRONMENTAL STATEMENT

We believe every business has a duty of care to minimise its impact on the environment. There isn't a 'one size fits all' solution so we approach every opportunity differently. Our business' greatest opportunity to make a change is through minimising our reliance on fossil fuels and through the use of environmentally sustainable packaging.

We are focused on three key areas, shown below. We aim to provide a balanced and informed viewpoint rather than eschewing any one particular solution as the "holy grail". We want to be honest and impartial in this highly complicated and complex area.

PACKAGING

Our aim is to remove any unrecyclable plastic from our business by the end of 2022. And we're firmly on our way to achieving this. The majority of our rigid plastic used is both recyclable and from recycled content.

We have worked with our suppliers to identify suitable alternatives to flexible plastic, such as compostable bags, which are now available. We also use FSC approved cardboard boxes in all shipments.

Our Card Tops are widely recycled and our marketing literature also uses FSC approved paper and board.

TRANSPORT

We work with delivery partners who have a strong commitment to reducing their impact on the environment by for example using Eco Start delivery vehicles and applying the standards for Environmental Management in their processes and policies.

BUILDINGS

Bon Bon's and HF Chocolates are owned by the Lanchester Wine Group and across the Group of companies over £8million has been invested in generating clean, renewable energy at our owned sites. We've installed movement sensitive LED lights, extra insulation & thermal glass at our HQ.

Our head office has 3x on-site 500kW EWT wind turbines generating up to six million kWh of electricity per year - that's enough to power 1,500 average homes. We also have a 41-kilowatt solar array on the roof at our HQ office complex. We use around 42% of this electricity. The remaining (enough to power 800 three-bedroom homes) is fed into the National Grid for use within our local community.
