

# Spring 2022

 EARTH SQUARED   
FABULOUS & FAIR TRADE

## Earth Squared - prioritising people and planet

**Fair trade** is why we started and continues to be at the heart of what we do. But we are also doing our best to reduce our impact on the planet including the following new initiatives.

**New packaging** – in the past year we have cut the use of single use plastics in our packaging by over 85%, but we recognised we needed to do more. Accordingly, for 2022 nearly all of our products will now arrive in entirely biodegradable, compostable, recyclable & marine friendly Eco Garment Bags. Designed so that products reach you in perfect condition these bags use Hydropol™ to biodegrade entirely after use – so they will look like plastic and protect like plastic, but with zero end of life problems. For more information please visit [www.ecogarmentbags.com](http://www.ecogarmentbags.com)

**Giving back** – we have partnered with GetGreenspark to support a number of initiatives including tree planting and plastic collection – all with the aim of reducing the impact of our carbon footprint. Our website checkout will soon be updated so you too can choose to support these initiatives when shopping!

**More to do** – we are continuing to work on improvements as to how we do things, and the positive changes we can make. Watch this space!

Being optimists, at Earth Squared we always look forward to Spring – with the promise of sunshine, longer days and flowers bursting into life – and we like to think our new collections reflect that!

Packed with new designs and styles, our Spring 22 ranges include new oilcloths, gingham, canvases, patchworks and tweeds, all created with a focus on design, quality and value for money. The pandemic has certainly tested us all in so many ways but our relationship with our fair trade producers is stronger than ever, as we have supported each other through the ups and downs of the crisis – but this has only been possible with the support of you, our fantastic customers.

A huge thank you.
