BESTSELLING

2022

Poet and Painter create bold and bright hand-illustrated greetings cards, full of warmth and humour. We aim to be high in wit and low in cheese.

We don't follow trends and our Fine Art training brings an unpredictable palette and untethered approach to our designs. We create all our own content, so you won't find anything like our cards anywhere else.

We have sold over a million cards world-wide, with everything designed in-house and printed to order in the UK on FSC rated stock.

All our packaging is fully compostable and recyclable.
