SPRING / SUMMER 2022

---

We plant a tree for  
every order we receive.

# 100,000 trees planted!

---

We take sustainability seriously at Wraptious. Thanks to you, by the end of 2021, we managed to surpass 100,000 trees planted and continue to try and make a positive impact in all that we do. We have a way to go, but are committed to continuously looking at how we can give back to our planet and its community. Here's a few examples:

- For every order we receive, a tree is planted through our Partners Trees for the Future. Each tree provides families with more than just food - it is providing income, empowerment and even saving lives.
  - All our paper and timber products are made from wood sourced from sustainable forests, or recycled pulp.
  - Our greeting cards, cushions and tea towels are packaged in biodegradable bags, saving over a tonne of plastic per year.
  - We no longer use plastic bubble wrap, having moved to a recycled paper alternative, and where possible we re-use packaging from our suppliers to protect your orders.
  - We also challenge and work with all our suppliers to be mindful of their packaging too!
  - As a member of the Slave Free Alliance, we have a zero-tolerance approach to modern slavery and act with integrity in all relationships.
- 

Thank you for helping us make a difference.

# Supporting Artists

As Founder of Wraptious, I made my first sale on a Manchester market stall 8 years ago. I realised quickly it's inherently difficult for creatives to get their work out there! So I began collaborating with artists, passionately sharing their work at over 400 markets stalls and trade shows. Now I am proud to say that Wraptious supports over 50 artists directly, and has promoted 1000s of others.

We believe all artists deserve an opportunity to have their work shared and enjoyed. Our new ranges are even launched from the winners of our biannual competition - fun events where the public - not us - choose our artists! It is thanks to you for supporting them that we are able to continue this journey creating opportunities to promote independent artists.

Thank you. Simon x

Emma Haines

Emma completed her BA Hons Degree in Illustration at Plymouth, before being awarded a Gold Award for Best Newcomer by the Association of Illustrators in 2012. This led to her work being displayed at Somerset House in London, and subsequently opening her own gallery in Ilfracombe, Cornwall. Emma mainly uses acrylics for her art work, and loves animals, with her dog Arnie coming to work with her every day at her gallery.

## *Sharon Salt*

Sharon is a fibre artist based in the Staffordshire Moorlands, and uses the technique of 'needle felting' to create her sculptures and pictures.

Sharon works with raw fleece and a barbed needle in place of paint and a brush! Her favourite 'canvas' is an upcycled piece of wool tweed. Sharon's love of dogs shines through in much of her work, and her own two never fail to inspire her!
