

FUN ILLUSTRATIONS, CUTE
CRITTERS AND SQUISHY CUSHIONS

hello

Hi! 2022 is here and so is my new catalogue.

The past few years have been a crazy journey for me with the business and personal life too. New babies, new studio, new ways of working; they are all intertwined when you run your own creative business aren't they? One thing that has remained a constant is my love of colour, textiles and illustrating; really the core of the brand. I hope you love the new work you find in these pages as well as seeing some of the old favourites. There are many, many cushions to choose from, lots of beautiful pieces to adorn walls and I'm excited to share a much extended range of greetings cards. Sending little notes of love have become so important over the past couple of years and I wanted to embrace this through my work.

much love, Helen x

bright pops
