WORKING WITH

ABOUT US

Zinc Bespoke offer a range of beautiful and distinctive handcrafted metal tables in a choice of colours and styles to suit a plethora of settings. Whilst originally known for our garden tables, due to their versatility our tables have become increasingly popular indoors, both in the home and high end restaurants.

Our tables are not only beautiful to look at but are strong, hardy and guaranteed to give you years of pleasure. Each table is built in wonderfully durable iron, with a sturdy zinc coated top, and are available in a selection of different shapes, styles and sizes. We can offer different paint finishes on our table legs, including a Farrow and Ball paint option.

All of our tables are lovingly handmade, meaning every single one is unique. Every table is hand crafted using our original designs and our distinctive tables have been produced by dedicated artisans for decades. The original designer and artisan responsible for our range is John Norman. John's years of expertise were passed down to his then apprentice.

Zinc Bespoke tables and are in great demand all around the world, especially in Europe given their European feel.
