eco rasca's

About eco rascals

eco rascals was founded in 2018 by two Mums passionate about creating a range of children's tableware that was organic, practical and eco-friendly. What started as an exercise to find a solution to mess-free mealtimes, spiralled into a love for stylish designed children's feeding products.

After a successful launch in the United Arab Emirates in 2018, the eco rascals range can now be found in over 25 countries worldwide.

Beautifully crafted bamboo plates, bowls, cups, cutlery and snack pots.

Stylish and practical designs in a variety of shapes and sizes for little people from six months to eight years and even further beyond.

All eco rascals products and packaging are free of plastic, BPA, PVC, Lead, Melamine and Phthalates.

100% naturally
organic bamboo

Multi award-
winning products

Made by Mums

Super suction
bases for a

No-toxins

The baby range

We have three plates perfect for those little ones who are just beginning their weaning journey or for toddler snacks and breakfast. Each of these plates has a dipping section and a larger meal area which allows small hands more space to grip onto slippery food.

Snail

Square

Ladybird

The Toddler and beyond

Our larger plate range is extensive with three new additions launching in January 2021. We have something for every child in this range - open plate, two section plate and three section plates. There's a vast choice of colours and cute designs to choose from too.

Owl

Elephant

Dinosaur

Rabbit

Duck

Car

Three sections

Open plate

One shape Two ways

Research has shown that younger children can find mealtimes overwhelming. Section plates are an ideal way of allowing children to feel more in control of their food.

As children grow and choose their favourite one pot dish, our toddler open plate is a great next level up for them to start feeling like a big kid.

eco rascals™

Essential Tableware

As well as an iconic range of suction plates, eco rascals has a vast range of every day tableware options that are frequently bought together

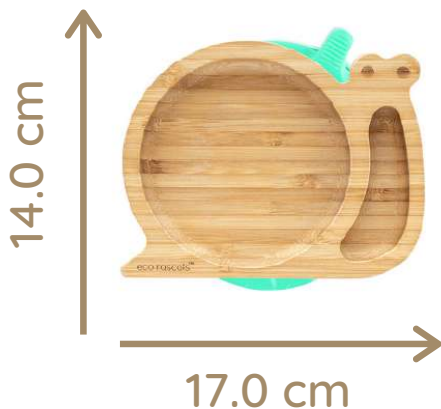

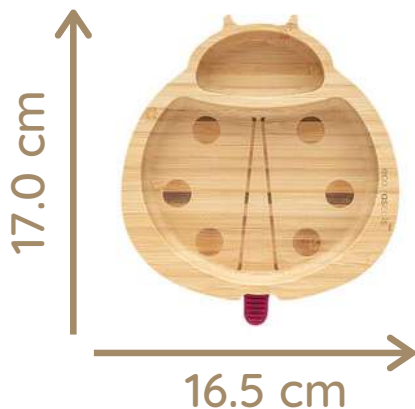

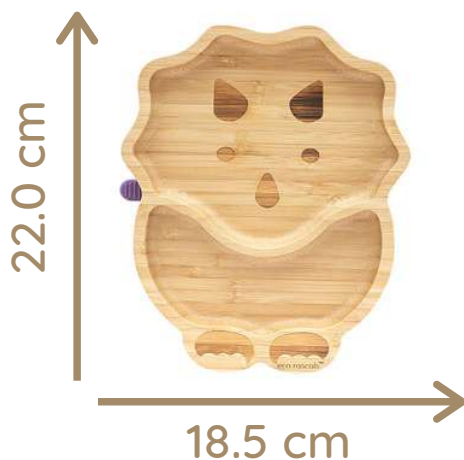

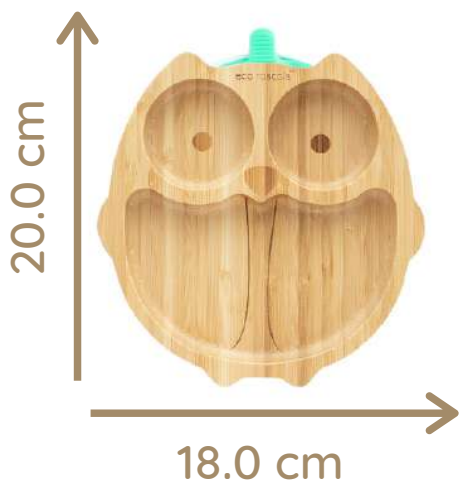

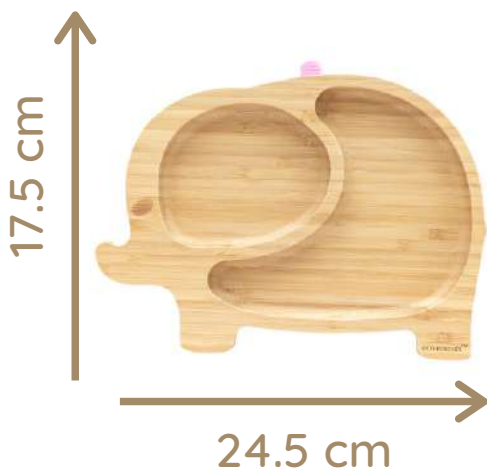

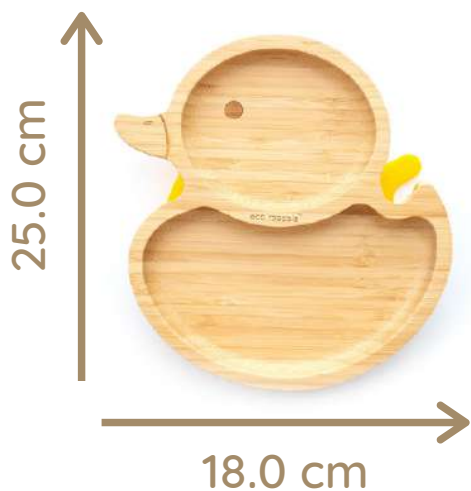

Gifting

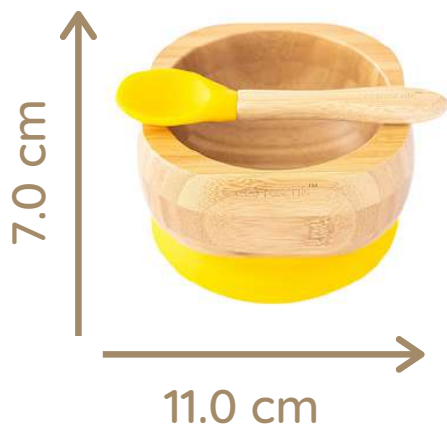

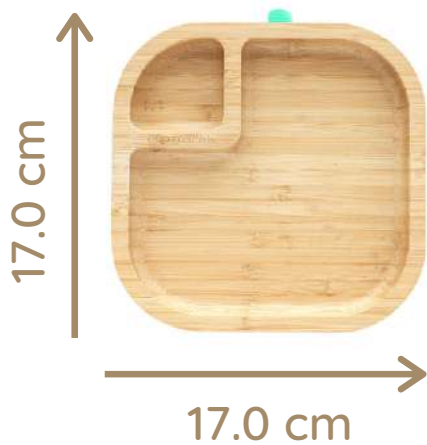

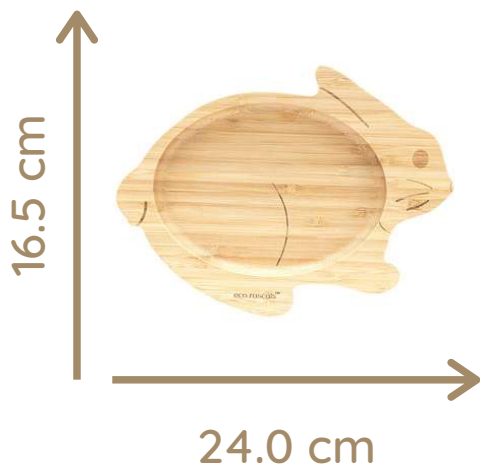

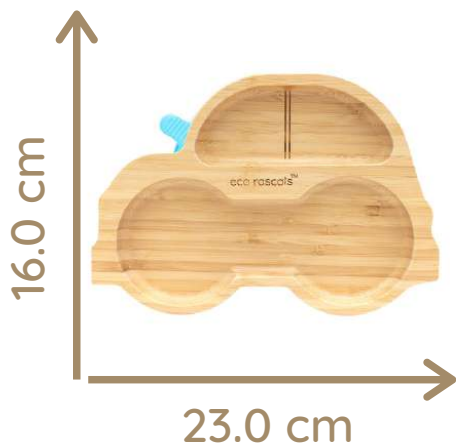

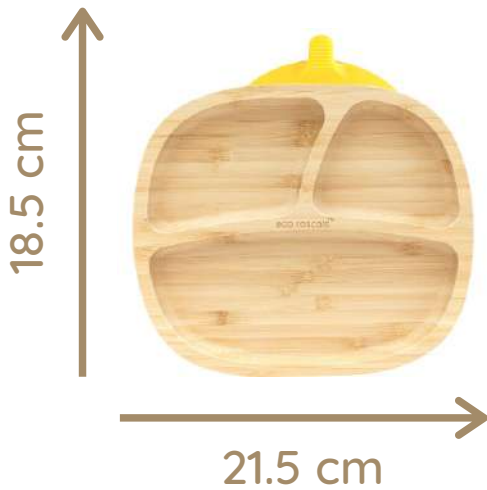

All eco rascals products can be gifted as individual pieces. However, we found that on special occasions such as birthdays, baby showers and Christmas. People love to gift with sets. We introduced our plate, bowl and cup set which comes in seven plate combinations - snail, ladybird, toddler, owl, elephant, car and duck in up to six colourways each.
