WHO ARE WE?

Zeno Fine Art is a pioneering art publishing house, dedicated to building close relationships with our affiliate partners, whilst supplying the limited edition prints, original artworks and NFT art of our dynamic range of hand-selected artists across the globe.

At the heart of Zeno Fine Art, is a deep passion for supporting our leading and emerging artists to succeed further in their careers through the means of fine art collecting and investment.

We realise this vision by connecting galleries to artists and working with affiliate partners who share our desire to be a part of the artist's journey.

At Zeno Fine Art, we provide a quality worth collecting.

THE MEASURES THAT WE PUT IN PLACE ENSURE THE ARTWORKS SUSTAIN THEIR BRILLIANCE FOR MANY YEARS TO COME.

AT ZENO FINE ART, EACH AND EVERY PRINT IS SIGNED AND UMBERED BY THE ARTIST AND ACCOMPANIED BY AN OFFICIAL CERTIFICATE OF AUTHENTICITY.

INTRODUCTION TO OUR METHODS

We are Giclée printing specialists producing museum-quality printed artworks that capture the excellence, energy and expression of the original art, and hold their own in any art collection.

Giclée printing is highly popular amongst artists, galleries and museums alike, with the resulting prints being of the highest quality and looking almost indistinguishable from the original artworks.

When an artist produces a print edition with us, the run is limited to a certain number, chosen by the artist. The size of an edition run can differ depending on a variety of factors.

At Zeno Fine Art, each and every print is signed and numbered by the artist and accompanied by an official certificate of authenticity.

Our carefully curated collection has been developed using state of the art processes and the highest quality inks and archival papers.

The measures that we put in place ensure the artworks sustain their brilliance for many years to come. Our limited-edition fine art prints provide longevity, affordability and accessibility while maintaining the quality of what most would deem to be rare and unobtainable works of art.

Abstract

DANIELA RAYTCHEV

Daniela Raytchev's artistic process often travels beyond just paint on canvas, working with a variety of mixed media at times including charcoal, inks, collage and material construction, sometimes even using her own body for gestural mark-making.

Daniela Raytchev's art draws inspiration from her personal life experiences, mental health awareness, neuroscience and the psychological effects of trauma, with positive undertones of the possibility of change.

Figurative

NETTIE WAKEFIELD

Nettie Wakefield is an artist with a solid grounding in art history and a commitment to traditional draughtsmanship, and a history of exhibiting her artworks internationally. She uses her art to create perceivable barriers between the artist and the viewer.

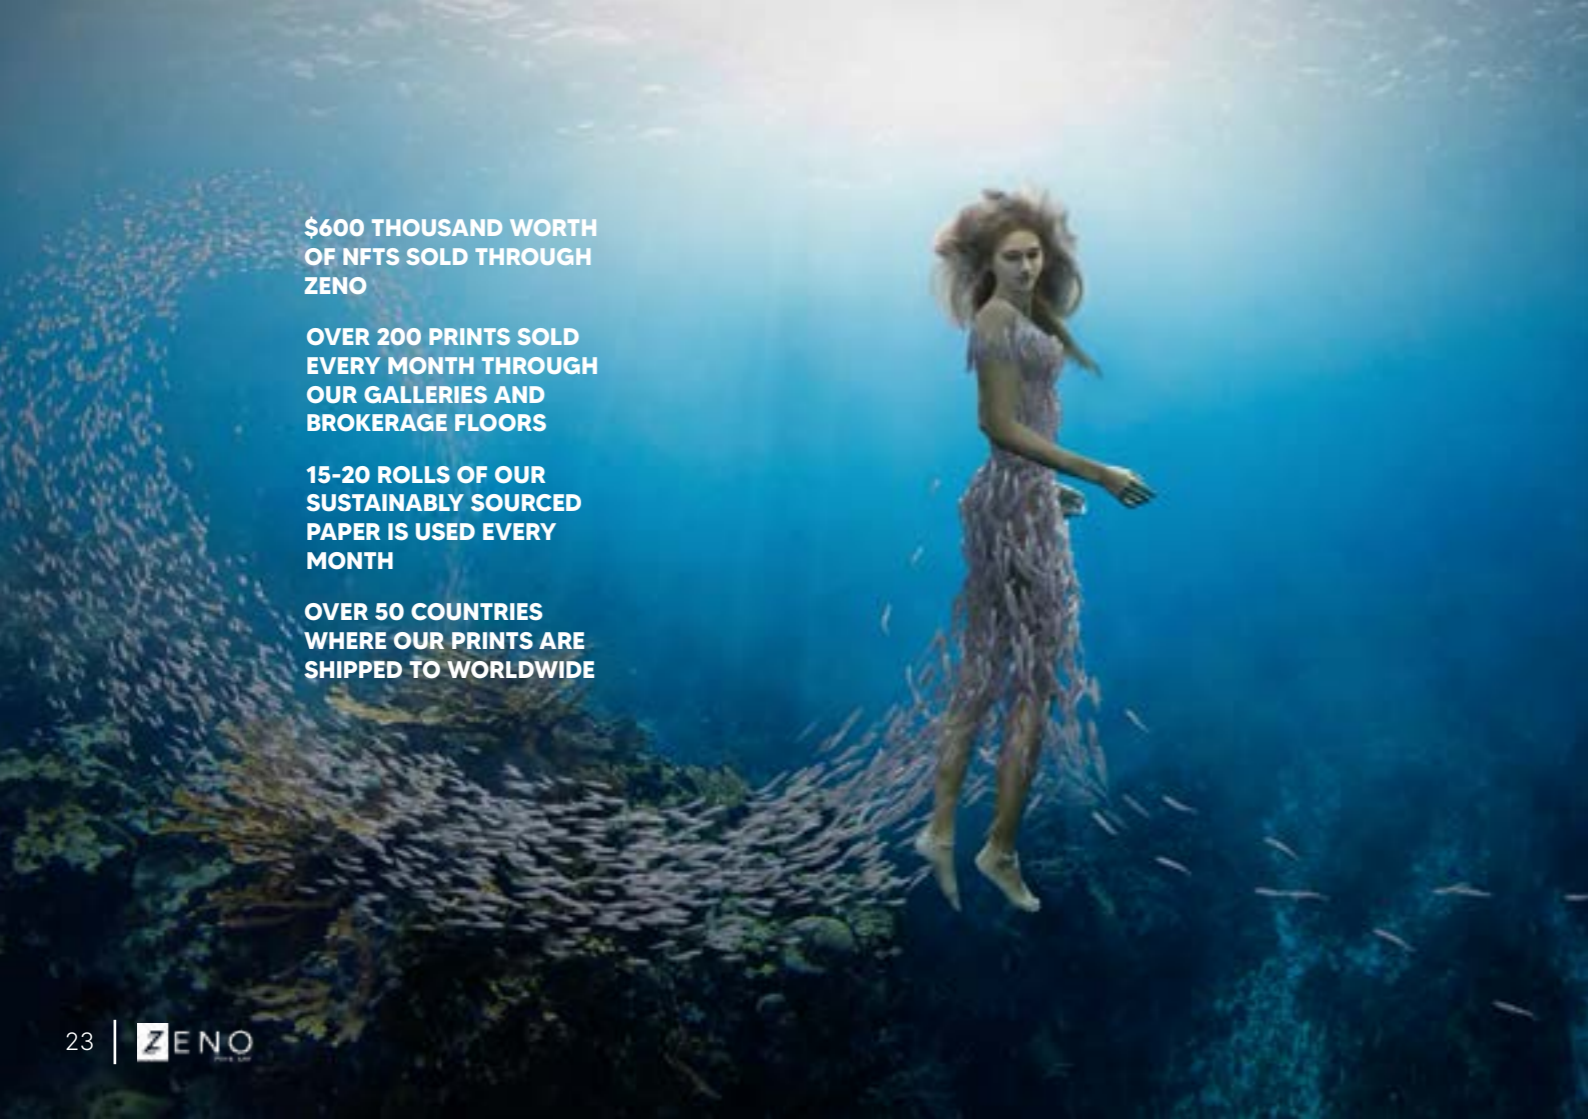

Her realistic figurative style centres around her dedication to observational art and she works predominantly with pencil on paper or watercolour paints. She observes her subject and captures its form in a suspended, isolated space, emphasising the importance that's usually missed.

Her work draws inspiration from human transience, the overlooked details of the mundane and the facets of everyday life that are taken for granted.

NFT

An NFT, or 'Non-Fungible Token' is a unique digital token that can be used to represent ownership of an asset, allowing a person to buy or sell a unique piece of digital art and authenticating sole ownership.

NFTs are created using a process called 'minting' and become a part of the Ethereum blockchain, a highly secure digital ledger that records all the details of the token and every single transaction, ensuring that even if the art is copied, only the true owner of the piece can prove authenticity.

At Zeno Fine Art, we have access to exclusive NFT art from artists including Miss Aniela, one of the top 20 best selling NFT artists in the world.
