## ABOUT EMMA

Emma is a designer and illustrator based in sunny Portsmouth on the South coast of England. Working from her home studio she creates a wide range of greetings cards using embroidery, stitching and digital illustration.

Our cards are digitally printed onto high quality FSC Mixed Board.

Sustainability is at the heart of what we do, using recycled textiles where possible. All of our cards come with kraft envelopes and an easy peel sticker to keep the envelope and card together, meaning our cards are fully recyclable.

DAD003

This collection is in memory of my fit and healthy dad who passed away from COVID-19 on 29/01/21 aged just 58. I haven't been able to quite bring myself to finish the collection yet, but plan many more designs.

This for everyone that's been through a tough time in the last few years.

You don't have to struggle alone.
