## Breba Trading

We would like to take some time to introduce you to our company. Breba Trading was founded in 2010 as a family company with the core business of designing, creating and distributing plush items. What started as a small-scale family company is now an international enterprise with a range of products that can be delivered all over the world. Our variety of products is attuned to the final user, the customer.

## More than just plushies

A team of enthusiastic professionals works hard every day to lift the concept of 'plushie' to a higher level. Effort has been made to make the complete collection multifunctional. Our products are more than just cuddly toys! We try to surprise as many senses with them as possible.

## Quality and safety

During the initial stage, the products are already subjected to strict safety requirements. During the design stage, attention is paid to the quality standards that our collection should live up to. During the production stage and logistic operations up to the destination, the products are monitored with great care.

## New for 2022!

For the year 2022 we are excited to introduce you some new styles of handwarmers. We added a popular collection of fruit items. Due to the success of the animal hooded blankets, we are introducing 8 new styles for 2022! Remember the popularity of the unicorns, sloths, and flamingos in the past years? We believe this year the Axolotls will be the new hype. A colorful collection of 7 different styles is ready for sale.

With kind regards,

Team Noxxiez

**VERSATILE:**

Our giant round plushies have many uses. They can be used as a soft pillow at night, in the car, in the plane or at the sofa. Children love to play with their round plushie friends.

**IDEAL HANDWARMER**

Every Cozy Noxxiez Cuddly Pillow has an opening on each side allowing you to easily fit your hands inside. Hands can be perfectly warmed by just putting your hands inside the plushie. Perfectly heated hands just from body heat!

By putting hands inside, children will feel safe, secure, and cozy. It also makes it easier to keep the pillow in the right position while using it as a (traveling) pillow in the car, plane, or train. Children love to hide their special treasures inside these plushies.
