PENGUIN INK

LUXURY LETTERPRESS

All cards are designed by Lizzie Parker. Originally from Suffolk, Lizzie is a professional Graphic Designer based in Bristol with her husband and young family. All card orders are hand selected and packed to ensure customers always receive the highest quality product by our small team pictured above.

Our cards are traditionally pressed by a lovely family printers in England. Letterpress is a beautiful technique using gorgeous old machines, it is a true craft. The finished card has a tactile, embossed finish exuding quality with thick paperstock and crisp pressed design.

Many of our ranges are now available on various high quality homewares all made by lovely companies in the UK.

We have four stationery ranges, Tiny notes (florist cards 90x58mm), Correspondence (C6), Wild Cards (150mm square) and Little Notes (C7). Each card comes with a 100% recycled brown kraft envelope packed naked using a low tack sticker/smart seal to hold them closed or cellophane wrapped for an extra charge in compostable bags. Our cards are printed onto 100% recycled or part recycled paper stocks of 350-360gsm european paper and letterpress printed in the UK.

The next few pages will take you through our current collections starting with our wild cards. Look out for stickers for our best sellers in each collection and all the new designs for this catalogue.
