## Key Information

IP rating = Ingress Protection Rating.

### Zone 0

The area inside the bath or shower tray. Fittings must be rated at IPX7 or higher (protected against immersion in water).

### Zone 1

The area above the bath or shower, up to a height of 2.25 metres. Fittings must be rated at IPX5 or higher (protected from jets of water).

### Zone 2

Covers an area 0.6 metres wide immediately next to, and all around Zone 1. The 60cm area around wash-basins should also be treated as Zone 2. The minimum rating is IPX4. If there is a likelihood of water jets being used for cleaning purposes in Zone 2, a minimum of IPX5 is required.

### Outside Zone

Covers any area outside Zones 0, 1 and 2. There is no IP requirement in this zone.

Bathrooms are allowed to contain a socket outlet, this must be located 2 metres outside Zone 1. Lighting circuits and any socket-outlet circuit in a room containing a bath and/or shower must be provided with 30mA RCD protection.

## Feature Icons

## Colour Temperature & Brightness

It is important to think about your light source when buying your lamps. LED light source is measured by brightness and colour temperature which dictates how cool or warm the light is. As an example, a spot light is normally much brighter in comparison to the light given by a candle light. Below is an example of the light sources.

**Warm white  
3000K**

All of the LED light sources quoted in our catalogue are within a tolerance of +/- 10%.

All Searchlight products are sold excluding lamps with the exception of IP rated products which are sold including lamps (refer to price list for additional lamp information)

**Cool white  
4000K**

**LUMEN 600-800**

**LUMEN 400-500**

- Any typographical, clerical or other error or omission in any sales literature, quotation, price list, acceptance of offer, invoice or other document or information issued by the company shall be subject to correction without any liability on the part of the company.
- Goods supplied may vary in detail from the illustrations, measurements and descriptions set out in the company's sales literature, which are approximate and for guidance only and will not form part of the contract.

- All colours are finishes. Colour finishes will be maintained as accurately as possible but matching cannot be guaranteed.
- All terminology used in the company's sales literature is subject to these conditions that is understood by general usage in the trade.
- All crystals are lead free.
- Only Use LED lamps - G9, G4, E14, E27 & GU10
